Welcome to the Undergraduate Program in Psychology!

Our undergraduate program is built on flexibility and breadth. It is flexible because undergraduate students have the option of obtaining a bachelor of arts (BA) or a bachelor of science (BSc) degree in psychology, a 90-credit or 120-credit Honours degree (double major, or Major/Minor) or a 120-credit Specialized Honours degree. In addition, students can complete their degree requirements during the fall/winter or summer terms by taking courses during the day or in the evening. We offer a breadth of courses; students may therefore choose to focus on specific areas of interest such as social, developmental, neuroscience, cognitive, quantitative or abnormal psychology, or follow a more generalized program that covers a wide variety of aspects of the discipline.

The BA Psychology program exposes students to a full range of psychological concepts and applications. The BSc option adds a focus on the physical and life sciences, including chemistry, physics, biology, and computer science, within a full range of discipline-specific courses.

Depending on the program/course choices, a Student can obtain excellent preparation for further postgraduate studies in psychology, law or medicine. Similarly, psychology can prepare students for many diverse career options in education, business, social services, public relations etc.

How to Use This Supplemental Calendar

This supplemental calendar has been produced to remind students of important details contained in the University Calendar, the official University document (<http://calendars.registrar.yorku.ca/>) and to provide program information specific to psychology. The online version of the Department of Psychology Supplemental Calendar may be accessed through the department website (<http://www.yorku.ca/psych>).

Additional information about Faculty of Health programs and procedures may be found in the Faculty of Health Handbook for New Students <http://health.info.yorku.ca/current-student-information/student-handbooks-and-enrolment-guides/>

This supplemental calendar is divided into five sections.

Part A provides an overview of general program information, and information about student advising, and various psychology-specific scholarships, prizes and bursaries awarded to students. In addition, the calendar provides Department of Psychology-specific requirements that include, for example, a description of rules about prerequisites.

Part B describes degree requirements as of September 2012, for the 120-credit BA and BSc in psychology (e.g. Specialized Honours, Honours, Honours Major/Minor), and for the 90-credit BA and BSc. This section also includes programs-of-study worksheets. *If you entered before 2009, have transfer credits, are reactivating your status to complete a degree or are confused about your degree requirements, contact the Psychology Undergraduate Office for an advising appointment. (For details, see "Psychology Advising Appointments," page 4)*

Part C describes important University Policies concerning such matters as academic integrity and the petition process

Part D provides detailed descriptions of the courses offered this year. The course information contained in this supplemental calendar is up to date as of May 23, 2013.

Part E provides information about student resources and student life on campus.

Part A: Program Information & Advising

Seek Advice First

Your first advising experience as a new York student will be through the **YU-start** program, York's new on-line advising and enrolment system. Throughout your years as an undergraduate at York, advising services are available to you from several sources and you are strongly encouraged to take advantage of these services.

OSAS

For information on general degree requirements or University-wide regulations, including general education requirements for a BA or BSc degree or what is involved in the petitions process, the Faculty of Health Office of Student and Academic Services (HH OSAS) is the place to go. The HH OSAS office is in Room 019, HNES. To make an appointment to see an OSAS advisor, call 416-736-5299, or e-mail hhadvise@yorku.ca. For more information about OSAS advising, see <http://health.info.yorku.ca/current-student-information/>

Psychology Undergraduate Office

For advising and help with issues related specifically to Psychology programs and courses, the Psychology Undergraduate Office should be your first stop.

The staff in the Psychology Undergraduate Office can help students with a variety of issues, including difficulty with enrolling in Psychology courses. The office staff can also provide information on topics such as psychology degree requirements and enrolling in an independent-study course. If office staff members do not have the answer, they will direct the student to the correct person or office.

For more complex issues related to a student's individual program, the staff may arrange an appointment for you to see the Psychology Advisor, the Undergraduate Administrative Assistant or the Undergraduate Director.

The Department of Psychology Undergraduate Office is located in Room 291/292 of the Behavioural Science Building (BSB), and can be contacted by calling 416-736-5117 from 9:30am to 3:30pm every weekday and from 4:30pm to 6:30pm every weekday except Friday. You can also send your query by e-mail to psyc@yorku.ca.

Psychology Advising Appointments

A student can seek advice from many different people including course directors, other faculty, staff etc. However, a huge number of courses are offered and more than 80 full-time faculty members conduct research and teach in the department. As we know our degree requirements, course content and course requirements, course directors better than anyone else, a student should book an advising appointment with the Psychology undergraduate advisor in the Department of Psychology Undergraduate Office. Advising appointments are available to any student enrolled in a Psychology program, and students are encouraged to see the advisor no later than the beginning of their 3rd year in the program to be certain they are making wise course choices that will allow them to graduate on schedule. Call 416-736-5117 for an advising appointment; there are no drop-ins.

The Psychology Website

Information about all aspects of the Undergraduate Program in Psychology may be found on the Psychology Department website <http://www.yorku.ca/psych>. Use the drop-down "Undergraduate Program" menu to find links to information about course selection at each stage of the program, all course outlines, a link to the electronic Degree Progress Report and much more. The website also advertises upcoming events in the Psychology Department, and separate sections are devoted to the Specialized Honours Program and to the York-Seneca Rehabilitation Services Program.

Information Sessions and Workshops

1. Course Selection Sessions

Information sessions are given in March and May for students completing Introduction to Psychology 1010 6.00 during the fall/winter term and planning to pursue a degree in Psychology. These sessions focus on course selection for the second year of study and planning ahead to meet the upper year requirements of the various programs in Psychology. Information about sessions will be posted on the Advising Board between rooms 291 and 292 BSB, and on the Psychology website <http://www.yorku.ca/psych>. Similar information sessions are offered for students entering the 3rd and 4th years of the Psychology program.

2. Undergraduate Director's Workshops

Throughout the year, workshops are organized by the Undergraduate Director on a range of topics relevant to students pursuing undergraduate degrees in Psychology such as how to find opportunities for research experience, how to plan ahead for graduate school, and career paths after a Psychology degree. These workshops are advertised on the Psychology website <http://www.yorku.ca/psych>, by posters in the Psychology Department, and by email through the Psychology Undergraduate listserv. The listserv includes all students registered as Psychology majors. To be added to the listserv, send your request by email to psyc@yorku.ca including your full name and email address.

3. Information Sessions for 4th Year Honours Students

Another source of advice is through the information sessions offered to all Honours students. The thesis coordinator offers a series of open information sessions or workshops throughout the year. These cover topics on completing your thesis, e.g. the difference between PSYC 4170, PSYC 4175 and PSYC 4000, how to produce a poster presentation, and information related to applying to graduate school, e.g. writing the GRE or applying for graduate scholarships. A schedule of workshops/information sessions is posted in the undergraduate office and on the Psychology website at the beginning of the fall and winter terms. If you cannot attend the information

sessions, see <http://psyc.info.yorku.ca/honours-students/> for handouts, Web links etc. on these topics and others pertinent to third- and fourth-year honours students.

Declaring Psychology as a Major or Minor

Students who want to declare Psychology as a major or minor must complete a Program Change request online. See <http://www.yorku.ca/roweb/program/change/> for details about deadlines and how to submit this request. If you change from another program into Psychology, book an advising appointment with the Psychology advisor as soon as possible to review our program and make sure you are on track.

NOTE: students cannot automatically change their major to a Specialized Honours degree in psychology; students must apply to this program in May after completing 53 credits. (Please see information about the Specialized Honours program online (including application) at <http://www.yorku.ca/psych>. Choose the Specialize Honours menu.

Finding People in Psychology

The office locations and telephone numbers for course directors, secretaries and teaching assistants are posted on the bulletin board outside the Psychology Undergraduate Office (291/292 BSB).

Faculty Research Interests

A printed copy of faculty research interests can be obtained in the undergraduate studies office or downloaded from the Psychology website <http://psyc.info.yorku.ca/honours-students/>. To find faculty members doing research in a particular area of Psychology go to <http://psyc.info.yorku.ca/research/> and click on any of the core research areas. To find out if a particular faculty member is taking on honours students, work-study students or laboratory volunteers, check their profile by selecting Faculty Directory on the Psychology website <http://psyc.info.yorku.ca>.

Access to Courses

Students must complete PSYC 1010 6.00 with a minimum grade of C (60%) in order to be eligible to enrol in upper level Psychology courses (other than PSYC 2021 3.00 or PSYC 2020 6.00, which can be taken concurrently).

General Program Eligibility

To be eligible to graduate in any BA/BSc program, students must successfully complete at least 90 credits with a minimum overall CGPA of 4.00 (C) or higher.

To proceed in each year of an Honours BA/BSc program, students must have a minimum cumulative credit-weighted GPA over all courses. Students whose CGPA falls below 5.00 during the course of their studies may proceed in an Honours program, on warning, provided that they meet the minimum CGPA requirements below:

YEAR LEVEL	CREDITS EARNED	CGPA REQUIREMENTS
Year 1	0-23 earned credits	4.00
Year 2	24-53 earned credits	4.25
Year 3	54-83 earned credits	4.80
Year 4	84 earned credits	5.00

To be eligible to graduate in an Honours BA/BSc program, students must successfully complete at least 120 credits with a minimum overall CGPA of 5.00 (C+) or higher.

Degree Requirements and/or Restrictions

Students are responsible for the accuracy of their registration records, and for ensuring that the courses they have chosen meet the requirements for graduation. A failure to fulfill the degree requirements will result in a declaration of *ineligibility to graduate*, even if the requisite number of credits (90 or 120) has been

completed. *Students will remain ineligible until such time as the missing requirements are fulfilled.*

Enrolment Access to Courses

Enrolment is controlled through specific time windows. Your enrolment window each term is determined by the number of credits you have successfully completed. To determine when you can enrol for the upcoming term, go to <http://www.registrar.yorku.ca/enrol/guide/> In many courses, some or all spaces are reserved initially for students in certain years, majors and programs. Therefore, even if you have the necessary prerequisites for a course, you may not be able to register in the course when your window opens. However, course access specifications are reviewed periodically, from the time enrolment access begins until the final deadline date to enrol. Space is then released to other categories of students, if space is available, so keep trying if a course outside of Psychology is not available when you first try. *Psychology majors/minors who have difficulty enrolling in **Psychology** courses should contact the Undergraduate Office as soon as possible for assistance. For contact information, see the directory at the front of this supplemental calendar.*

IMPORTANT: ENROLLING ON THE DAY AND AT THE TIME OF YOUR ASSIGNED ENROLMENT ACCESS WINDOW IS TO YOUR ADVANTAGE.

Repeating a Course

A student may repeat a passed or failed course once without submitting a petitions request. The grade earned the second time the course is taken will replace the first grade in the calculation of the GPA. **This means that even if a student's grade is worse the second time, the second grade is the one calculated into the GPA.** In addition, both grades will appear on the transcript; NCR (no credit retained) will appear next to the first grade. You may **not** register for a course for a third time without petitioning or while a petition is in progress; only if the petition is successful may you enrol again in the course. *It is critical that you understand this rule.* This is especially important in the case of required courses – courses that must be

completed in order to receive a degree in Psychology. These include PSYC 1010 (Introduction to Psychology), Statistics (PSYC 2021 3.0 for the 90 credit degrees, and 2020 6.0 or 2021 3.0 and 2022 3.0 for all 120 credit degrees), and Research Methods (2030 3.0). If you fail one of these courses twice, this could prevent you from graduating in Psychology. For more information on repeating passed or failed courses, visit <http://www.yorku.ca/secretariat/policies/document.php?document=92>.

Total Number of Courses Permitted

A student is limited to enrolling in the equivalent of 36 credits per academic year, September to April. Students may take a maximum of 15 credits in the summer session. However, students should be aware that summer courses are very intensive as they cover the same material as fall/winter courses typically in half the number of weeks, so students are advised not to take more than two courses in any one summer session and *no more than one course* if it is a course you are repeating due to a poor grade.

Upper-level Course Prerequisites

Students are responsible for ensuring that they have completed the necessary prerequisites for their courses. Lack of prerequisites may *not* be used as a basis of appeal. Students found to be ineligible for a course may be removed from it at any time, and will receive no adjustment to their fees. The decision cannot be appealed. If students find that they do not have the course prerequisites, it is in their best interests to drop the course well before the drop date. Prompt attention to this matter will help students protect their academic record. Detailed information about prerequisites for Psychology courses may be found on the Psychology website under Undergraduate Program Years 2 & 3: <http://psyc.info.yorku.ca/major-in-psychology-years-2-3/>

To enrol in 4000-level Psychology courses, students must satisfy the following:

- Students must be in an Honours program, have Honours standing, and have completed 84 credits (not including Faculty of Education courses).
- 4000-level Psychology courses require the following general prerequisites or substitutes:
 - PSYC 1010 6.00 with a minimum grade of C.
 - PSYC 2030 3.00.
 - PSYC 2021 3.00 or PSYC 2020 6.00 or substitutes.
- Before enrolling in PSYC 4000 6.00, PSYC 4001 6.00, PSYC 4170 6.00, or PSYC 4175 6.00 students *must have completed* a full year of statistics, i.e. PSYC 2020 6.00, PSYC 2021 3.00 AND PSYC 2022 3.00 or substitutions.
- Before enrolling in PSYC 4001 6.00, students must complete PSYC 3010 3.00 or a substitute course.
- Most 4000-level and some 3000-level psychology courses require completion of additional 2000-level or 3000-level specific course prerequisites. Students must make sure they have completed the other listed prerequisites, or their enrolment in the course will be cancelled and they may lose their tuition fee. To determine what these other course prerequisites are, please see the 3000- and 4000-level courses in this supplemental calendar and the prerequisite maps on the Psychology Website <http://psyc.info.yorku.ca/major-in-psychology-years-2-3/>

Some students may have completed slightly fewer than the required 84 credits and still intend to graduate by summer 2014. Such students may wish to enrol in fourth-year courses for 2013 to 2014, but will be denied access to 4000-level psychology courses when they use the online enrolment system. These students should contact the Psychology Undergraduate Office in 291/292 BSB by the end of May, 2013, for instructions.

Course Credit Exclusions

Credit will not be given for a second course deemed to be sufficiently similar in content to a previously taken course that it constitutes “course credit exclusion.” Most course credit exclusions (CCEs) are listed within individual course descriptions in the calendar. Just because two courses are CCEs does not mean they are equivalent and therefore they do not necessarily serve as substitutes in fulfilling degree or program requirements.

Generally, statistics, economics and mathematics courses (to name only a few) often have course credit exclusions. In addition, many of our courses have CCEs with Glendon College psychology courses. Glendon psychology course numbers have the GL acronym instead of HH in front of PSYC, and, although they are considered CCEs, they do not necessarily have the same course numbers as ours.

Limitations on Courses from Other Faculties

Credit for non-Faculty of Health courses, e.g. Faculties of Fine Arts, Business, Law, Science, Liberal Arts and Professional Studies courses, taken toward the BA degree will be allowed in accordance with limitations described in the Undergraduate Calendar. Please refer to the calendar at <http://calendars.registrar.yorku.ca/> for more details, or consult the Undergraduate Psychology Office.

Taking Courses at Other Universities

The residency requirement for all York BA and BSc degrees is that a minimum of 30 credits and at least half (50%) of the course credits required in your major/minor must be taken at York University. Sometimes students wish to take one or more courses elsewhere, for example as part of an international exchange program or in order to complete a prerequisite over the summer. In all cases a Letter of Permission (LOP) or comparable document through the international exchange program must be completed and approved by the Undergraduate Director. There are several important things to keep in mind when considering taking courses elsewhere for your Psychology degree at York.

- 1) In order to earn the course credits, you must achieve a grade of 60% or better in the course.
- 2) Your grade will not be counted in your York CGPA even though the credits are counted toward your degree.
- 3) Credits taken at other Canadian Universities are awarded at the level that the course is given at the host University, regardless of the course level at York. Therefore, if a course has a 3000 number at the host school, you will be able to count this course as 3000 level credits at York even if the comparable course has a 2000 number at York (e.g. PSYC 2110 Developmental Psychology). However the opposite is also true. If a course like PSYC 3140 Abnormal Psychology is taken elsewhere with a 2000 number, you will not be able to count these credits toward the total of upper year (3000 or higher) credits required in your degree.
- 4) The Psychology department rarely approves 4000 level courses at other universities and never permits final year thesis/research courses to be taken elsewhere.
- 5) All courses taken outside of Canada will be evaluated by the Undergraduate Director for content, mode of evaluation, credit value etc to determine the level at which credit will be given if the course is approved.
- 6) All LOPs must be approved BEFORE you enrol in a course elsewhere.

For further details about LOPs and application forms, go to:
<http://www.registrar.yorku.ca/enrol/lop/> Read all this material very carefully before you take any course at another university.

Information for Transfer Students

Many Psychology students transfer into our program from other universities, other faculties at York or other programs within the Faculty of Health. Some have already completed a degree and wish to complete a second degree. In all cases, it is very important to be aware, from the beginning of your time as a Psychology student, of the degree requirements of our programs, and the number and nature of the credits you may bring with you from your earlier studies. You should meet with the Psychology Department undergraduate advisor as early as possible in your first year in the Psychology program to make sure you are on track (call 416-736-5117 to book an appointment).

Transfers from Other Universities:

When you are admitted to York, your transcript from your previous university will be assessed by the Registrar's Office and you will be credited a certain number of credits based on your earlier work. It is very important to find out right away which SPECIFIC program credits or waivers you are receiving, as well as the total number of credits. This is important both for your program requirements (i.e. Psychology courses) and also for other degree requirements (e.g. General Education requirements for all students, 1000 level Science requirements for BSc students). Here we will deal *only* with the program-specific requirements. Be sure to check through the Faculty of Health Advising Office (OSAS) for other specific waivers (e.g., General Education courses) and keep a written record of this.

Psychology requirements: The first requirement for all transfer students is 6 credits of Introductory Psychology with a grade of C. If you have not met this requirement, you must take PSYC 1010 6.0 in your first year at York, before taking any other Psychology courses. It is possible to take Statistics (2020 6.0 or 2021 3.0) at the same time, but PSYC 1010 is a required prerequisite for all other Psychology courses. If you took only a 3 credit Introductory Psychology course elsewhere, you must request an evaluation through the Registrar's Office. If the course you took is not sufficiently broadly based, you will have to complete PSYC 1010. Do not assume you will be okay – this will catch up with you! You do not want to be prevented

from graduating while you take Introductory Psychology in your final year!

Other Psychology courses taken at other institutions are evaluated for their equivalence to our courses through the Registrar's Office.

It is very important to have this done as soon as you move to York. Typically, courses from Canadian Universities are accepted as equivalents to York courses with similar names and content, but the level at which they are credited must be established, so it is important that this is taken care of when you enter the program and that you keep a written record of these decisions. Courses from international institutions are evaluated on an individual basis.

Internal Transfers:

York students transferring to Psychology should make an appointment with the Psychology advisor as early as possible after the transfer to discuss your program and selection of your Psychology courses. Psychology Advising is NOT the same as OSAS (Faculty of Health Advising) who you may also see. To see the Psychology Advisor, call 416-736-5117 to book an appointment.

If you transfer into Psychology from another school/department in the Faculty of Health, but have not passed PSYC 1010 with minimum grade of C, you must accomplish this before you will be permitted to take any additional Psychology courses. *This rule is enforced in all cases.*

Some of the core courses in Psychology (e.g., Statistics, Research Methods) have substitutes in other departments at York (e.g., KINE 2049 is a substitute for PSYC 2030). If you have passed these courses in your previous program, they will be waived in Psychology but you must make certain this has been recognized in your official York record. However, if you have failed one of these courses, you are in the same situation as if you had failed the equivalent Psychology course (see page 6); you may only take that course or the Psychology equivalent one more time without petition. If you have failed one of these substitute courses twice, you cannot assume you will be able to complete a degree in Psychology; this will require a successful petition. If you don't take care of this right away, you may find that you cannot graduate in Psychology even after accumulating

many Psychology credits. This is your responsibility!

Some student transferring into Psychology, especially from Kinesiology or Nursing, do so believing that this is temporary and that they will move back to their original program when their grades improve; therefore they do not seek Psychology advising or pay attention to Psychology requirements. This is a serious mistake. Many students are not successful in transferring back into their original programs, and then find that they have to spend an extra year or two completing a degree in Psychology or cannot graduate at all because they have not paid enough attention to our program requirements, rules around failures etc. Don't let this happen to you! If you make Psychology your major, take it seriously. If you are not interested in Psychology, choose a different major right away or spend a year taking electives until you find a field that truly interests you.

CCEs that are not Approved Substitutes

Some courses offered by other departments (or universities) have significant overlap with our courses but not enough overlap to allow us to accept the course as a substitute. For example, Statistics as taught in Political Science (POLS 3300) is a CCE but NOT a substitute for PSYC 2020. This means that if you transfer into Psychology, you would have to take PSYC 2020, because it is a required course, and you would not be able to count your previous Political Science course in your degree because of the overlap. Be sure you understand your personal situation in this regard when you begin your Psychology studies.

Thinking About Your Future

Students who are interested in obtaining masters or doctoral level degrees in psychology should plan early in their undergraduate career. Most graduate schools in Canada require a *minimum* average of B+ (minimum overall GPA of 7.00) for the last two years (approximately the equivalent of 20 three-credit courses) of study in an Honours degree program.

Schools may also require that students have completed a minimum of eight full courses or the equivalent (48 credits) in a breadth of psychology courses that cover specific areas, including introductory psychology, statistics and research methods, as well as the biological, cognitive, developmental, social or abnormal basis of behaviour etc. Students contemplating graduate study are advised to take courses in statistics and research methods beyond those required for a general Honours degree, e.g. PSYC 3010 3.00 and PSYC 3031 3.00. In addition, they should check graduate program Web sites for further information about the breadth of psychology courses they must complete before applying to graduate school. Research experience is a valuable asset in preparation for graduate programs. Interested students should consider an independent study course (PSYC 3890 3.00/6.00 or PSYC 4890 3.00/6.00) when they select their optional psychology courses. See the course descriptions in Section C for further details about the independent study courses. Students may also pick up an information sheet and the contract for the independent studies course in the undergraduate studies office or download them from the Psychology website <http://psyc.info.yorku.ca/forms/>.

A student completing the **Specialized Honours** program may be more competitive for the limited spaces available in graduate programs. Students who meet the requirements for the Specialized Honours program are therefore encouraged to apply no later than May 15. For further details about the program and its entrance requirements, please visit the program's website <http://yushpp.apps01.yorku.ca/>

Honours, Scholarships, Awards, Medals

In honour of their outstanding achievements, all students who obtain any of the following awards/scholarships are invited to an awards ceremony that usually takes place in early spring. Their names and photographs are also placed on our awards bulletin board outside the undergraduate office (room 291/292 BSB).

For any of the awards/scholarships listed below that require applicants to show financial need, applicants must have completed a student financial profile. Details and the online application can be found at <http://sfs.yorku.ca/aid/sfp>.

Awards for Outstanding Thesis Research

The W.B. Templeton Honours Thesis Award

To honour the memory of Professor W.B. Templeton, the W.B. Templeton Honours Thesis Award is awarded to the fourth-year psychology student who produces the most outstanding Honours thesis. The Honours thesis supervisor nominates the thesis. A special committee appointed by the undergraduate director of the Department of Psychology evaluates all theses and selects a winner. The recipient of the award has her or his name inscribed on a plaque, which lists all previous winners and is displayed in the Norman S. Endler Room (163 Behavioural Science Building). This award also includes a prize of \$100.

Application: No application by the student is necessary.

Goranson Memorial Research Award

This award honours the memory of Professor Richard Goranson, a long-time member of the Department of Psychology who was committed to the supervision of undergraduate research projects. Awards are given annually to fourth-year Honours students who satisfy the criteria below and submit an application. Each award has an approximate value of \$400, which is to be used to cover expenses incurred in carrying out thesis research.

Inclusion/exclusion criteria:

- Must be a Canadian citizen/permanent resident and an Ontario resident
- Must demonstrate financial need
- Must be registered in PSYC 4000 6.00 Honours Thesis or PSYC 4001 6.00 Specialized Honours Thesis

Application: Applicants must submit a one-page description of their thesis project, along with a description of the expenses this award would cover. The one-page, hard-copy description should be submitted to the program assistant in Room 283 BSB, Department of Psychology, or e-mailed to bthurst@yorku.ca with "Goranson Award" in the subject heading of the e-mail. Applications are *due by the end of November*. More information about the application can be found on the Psychology website: <http://psyc.info.yorku.ca/honours-students/>

Awards Based on Academic Merit and Financial Need

Koenig Psychology Undergraduate Award

In recognition of Professor Kathryn Koenig's long-time commitment to undergraduate education in the Department of Psychology, the Koenig Psychology Undergraduate Award is offered as a means of identifying, honouring and rewarding excellence in the Psychology Honours program, Faculty of Health. This award carries a value of approximately \$1,000 (tuition credit applied to the next fall/winter session).

Inclusion/exclusion criteria:

- Completion of 78 credits
- Major in psychology in an Honours BA or BSc program
- Highest sessional GPA on 30 credits (five full courses) in previous fall/winter session
- Must demonstrate financial need
- Must enrol in at least 24 credits (or the equivalent of four full courses) in the session for which the award is granted
- Must be a Canadian citizen/permanent resident and an Ontario resident
- Recipients of the President's or Governor's Awards of Distinction are excluded from receiving the Psychology Department Scholarship concurrently.

Application: No application by the student is necessary.

The Ivana Guglietti-Kelly Award

This award is in honour of Ivana Guglietti-Kelly. Each year, both graduate and undergraduate students in any of the departments of psychology at York (Faculty of Health, Glendon College and Graduate Studies) will be invited to submit completed work in competition for this award. The approximate value of this award is \$500.

Inclusion/exclusion criteria:

- Completed work may be historical, theoretical or empirical, but will be distinguished by its focus on qualitative methods illuminating psychological processes
- Must be a Canadian citizen/permanent resident and an Ontario resident
- Must demonstrate financial need

Application: Contact the Psychology Undergraduate program director, Psychology Undergraduate Office, 291/292 BSB.

Awards Based on Academic Merit

The Ivana Guglietti-Kelly Prize

This prize has been established to honour Ivana Guglietti-Kelly, whose interest and work in qualitative methods led to the first publication from the Department of Psychology at York University to be included in *The Journal of Phenomenological Psychology*. Each year, both graduate and undergraduate students in any of the Departments of Psychology at York (Faculty of Health, Glendon College and Graduate Studies) will be invited to submit completed work in competition for this prize. Two prizes may be awarded, and the approximate value of the prize varies.

Inclusion/exclusion criteria:

- Completed work may be historical, theoretical or empirical, but will be distinguished by its focus on qualitative methods illuminating psychological processes
- Must be a Canadian citizen/permanent resident and an Ontario resident

Application: Contact the Psychology Undergraduate program director, Psychology Undergraduate Office, 291/292 BSB.

The Psychology Undergraduate Book Prizes

These awards are offered as a means of identifying, honouring and rewarding excellence in the Psychology Honours program. Approximately six awards will be made annually to the most outstanding second-, third- and fourth-year psychology students completing a full course load (approximately one award for a BA and one award for a BSc in each year level). Awardees are offered a selection of a book sold by the publishers sponsoring the event.

Inclusion/exclusion criteria:

- Major in psychology in an Honours program in the Faculty of Health
- Highest sessional GPA on 30 credits (five full courses) in the previous fall/winter session
- Completion of at least 12 credits in psychology

Application: No application by the student is necessary.

The Sandra W. Pyke Scholarship

This scholarship was established by Professor Sandra Pyke to assist an Honours undergraduate Faculty of Health or Faculty of Liberal Arts and Professional Studies student entering year 4 (successful completion of at least 90 credits) of an Honours Double Major or Honours Major/Minor program in Psychology and Women's Studies. In the case of ties, one award will be equally divided among the students who meet the criteria for the award. Approximate value of this award is \$500.

Inclusion/exclusion criteria:

- The recipient is selected on the basis of academic merit (the highest overall CGPA at the end of year 3).
- A condition for accepting the award is that the student will enrol in at least four full courses (24 credits) for the session in which the award is granted.
- Must be a Canadian citizen

- Should be enrolled in a double major or major/minor program in Psychology and Women's Studies
- Recipients of the President's Scholarship or the University Awards of Distinction will be excluded from receiving this award concurrently.

Application: No application by the student is necessary.

Awards Based on Financial Need

The James Alan Brackley Bursary

This award was established to honour the memory of James Alan Brackley, a Department of Psychology staff member for 32 years. One award will be given annually to a psychology major in the Faculty of Health who is in financial need.

Inclusion/exclusion criteria:

- The recipients must be a Canadian citizen, permanent resident or protected person, and be an Ontario resident
- Must demonstrate financial need

Application: Please review the Fall/Winter Undergraduate Bursaries and Awards Program information available at <http://sfs.yorku.ca/aid/sfp> and submit a student financial profile.

External Awards, Scholarships and Bursaries for Psychology Students

The Newton/Wilder Achievement Bursary

Prof. Elaine Newton and her husband, Alan Wilder, have established this award in appreciation of the education that all six of their children received at York University.

Inclusion/exclusion criteria:

- Major or minor in one of the following programs at the Keele Campus:
 - Faculty of Health—Psychology, Kinesiology & Health Science
 - Faculty of Liberal Arts and Professional Studies—Creative Writing, English, History, Humanities, Philosophy
 - Faculty of Fine Arts—Film (Photography), Dance, Music, Theatre, Visual Arts
 - Faculty of Education—Education
- Completion of a minimum of 54 credits
- 7.00 (B+) average
- Must demonstrate financial need

Application: To apply for this award, please fill out the Student Financial Profile at <http://sfs.yorku.ca/aid/sfp>. Please include a personal statement outlining your financial circumstances.

Part B: Programs of Study, Degree Requirements and Worksheets

Psychology degree-requirement worksheets are provided in the following pages. They summarize the degree requirements for a major in psychology for a 90-credit (3-year) BA/BSc degree, or a major/minor 120-credit (4-year) Honours BA/BSc degree. Students are encouraged to use these worksheets to chart their progress as they fulfill the requirements for their degree.

In addition to completing fewer credits than students seeking a 120-credit Honours BA/BSc, students seeking a 90-credit BA/BSc are not required to complete a thesis or as many statistics or upper-level courses. A major difference between the Honours and the Specialized Honours degrees is that students seeking a Specialized Honours degree must do additional coursework in statistics, research methods and the history of psychology. Both the Honours and Specialized Honours degrees require a thesis; students accepted into the Specialized Honours program are guaranteed a thesis supervisor and more guidance to help them become competitive in applications for graduate study in psychology.

Students are responsible for ensuring that the courses in which they enrol will meet all requirements for graduation, and that they have successfully completed all prerequisites for the courses at the time of enrolment. Students therefore are encouraged to make an advising appointment with a Department of Psychology undergraduate program adviser, who can monitor their progress.

BA Degree Requirements

The following summarizes the main areas of degree requirements that students must complete while progressing through the Honours BA (120-credit) or BA (90-credit) program:

- **Psychology MAJOR requirements:** All majors require completion of Introduction to Psychology with a minimum grade of C, statistics, research methods, course(s) from the 2100/3100 series (foundation courses in the developmental/social/clinical areas of Psychology) and the 2200/3200 series (foundation courses in the biological and cognitive areas of Psychology; see page 36 for details), and a selection of other psychology courses to complete the minimum major and upper-level degree requirements. The Honours BA degrees also require completion of a thesis with an individual supervisor (PSYC 4000, PSYC 4001) or an advanced research course in seminar format (PSYC 4170) or in a community-based research format (PSYC 4175).

The student's degree program (Honours, Specialized Honours, Honours Double Major, Honours Major/Minor with psychology as the Major or Minor, or the 90-credit BA) requires completion of a specific number/type of psychology courses, which vary depending on the degree. Check individual worksheets for specifics.

- **GENERAL EDUCATION REQUIREMENTS:** The general education requirements are listed in the individual worksheets. For a list of approved General Education (GenEd) courses in: Humanities, Modes of Reasoning, Natural Science and Social Science see <http://health.info.yorku.ca/current-student-information/general-education-requirements/>. Note that Gen Ed requirements are set by the home Faculty; therefore if you are doing a Psychology Minor with a Biology Major, the Gen Ed requirements of the Faculty of Science would apply. Similarly, a Double Major in English and Psychology would have Gen Eds determined by the Faculty of Liberal and Professional Studies.

- **ELECTIVE REQUIREMENTS:** The total number of elective credits varies across degree programs and is listed in the individual worksheets. **At a minimum, students must take 18 credits of electives outside of their major.** As Psychology is one of the few programs with a maximum number of psychology courses allowed, students completing an Honours degree in Psychology must take more than 18 credits in electives outside of their major (see worksheets for details). The Psychology course maximum may only be exceeded with the permission of the Undergraduate Program Director.
- **RESIDENCY REQUIREMENT:** A minimum of 30 course credits, and at least half (50 per cent) of the course credits required in the major/minor must be taken at York University.
- **UPPER-LEVEL REQUIREMENTS: To enrol in 4000-level courses in Psychology, students must have honours standing, completed 84 credits and the prerequisites for those courses** (Please see page 53 for details).

For the 120-credit BA (Honours, Specialized Honours, Honours Major/Minor when psychology is the major), students must take 36 credits at the 3000 or 4000 level; a minimum of 18 credits must be at the 4000 level. Included in the 18 credits at the 4000 level must be the completion of a thesis with an individual supervisor (PSYC 4000) or in a seminar course format (PSYC 4170) or a community-based research format (PSYC 4175), and at least six additional 4000-level credits in psychology. **NOTE:** *Specialized Honours students conduct an individual thesis research project with a supervisor and enrol in a seminar course (PSYC 4001 6.00). Any other specific information on the upper-level requirements for other Honours BA degrees, e.g. Honours Double Major, or Honours Major/Minor when psychology is the minor, is included on the individual worksheets.*

For the 90-credit BA, students must meet the upper-level requirement, which is 18 credits at the 3000 or 4000 level; a minimum of 12 credits in psychology must be at the

3000 or 4000 level; however, 4000 level courses are generally not open to 90-credit degree students.

- **CUMULATIVE GPA (CGPA) REQUIREMENT:** Students intending to graduate with an **Honours degree** must complete a total of at least 120 credits with a minimum CGPA of 5.00 (C+). Successful applicants to the **Specialized Honours program** must maintain a minimum CGPA of 7.00 (B+) and complete a total of at least 120 credits with a minimum overall cumulative grade point average of 7.00 (B+). If students in the specialized honours program do not maintain the CGPA of 7.00 then they will be automatically moved into the Honours program. They will graduate with an honours degree as long as they do not drop below the CGPA of 5.00. Students intending to graduate with a **90-credit BA degree** must complete a total of at least 90 credits with a minimum CGPA of 4.00 (C).

The degree worksheets that follow specify degree requirements as of September 2012. These worksheets have been provided to supplement and remind students of important details contained in the University Calendar - the official document of the university. **For complete information, please consult the University Calendar at <http://calendars.registrar.yorku.ca>.**

NOTE: *These worksheets may not work as well for psychology students who formerly were mature or part-time students in the Atkinson Psychology program, or who are transferring from another faculty at York University or from another university. Such students may have taken courses whose names or course codes have changed at York University, or may have transfer credits from another faculty or university. To ensure that you are properly informed about your degree requirements, please make an appointment with the psychology adviser for the undergraduate program or the director of the undergraduate program.*

BSc Degree Requirements

Changes as of September 2012: new students admitted to the BSc program, as well as between faculty transfers and within the Psychology program transfers between the BA and BSc degrees will follow the new BSc requirements as described below. Students admitted to the BSc program prior to the change (including within faculty change of major transfers (e.g. from Kinesiology to Psychology) may proceed under the degree requirements in place when they were admitted.

The following summarizes the main areas of degree requirements that students must complete while progressing through the Honours BSc (120-credit) or BSc (90-credit) program:

- **Psychology MAJOR requirements:** All majors require completion of Introduction to Psychology with a minimum grade of C, Statistics, Research Methods, courses from the 2100/3100 series (foundation courses in the developmental/social/clinical areas of Psychology) and the 2200/3200 series (foundation courses in the biological and cognitive areas of Psychology; see page 36 for details), and a selection of other psychology courses to complete the upper-level psychology major requirements (see upper-level requirements section for details). The Honours BSc degrees also require completion of a thesis with an individual supervisor (PSYC 4000, PSYC 4001) or in a seminar course format (PSYC 4170) or in a community-based research format (PSYC 4175).

The student's degree program (Honours, Specialized Honours, Honours Double Major, Honours Major/Minor with Psychology as the Major or Minor, or the 90-credit BSc) requires completion of a specific number/type of psychology courses, which vary depending on the degree. Check individual worksheets for specifics.

- **GENERAL EDUCATION REQUIREMENTS:** The general education requirements are listed in the individual worksheet. For a list of approved General Education courses in: Humanities, Modes of Reasoning, and Social Science see

<http://health.info.yorku.ca/current-student-information/general-education-requirements/>

Note that Gen Ed requirements are set by the home Faculty; therefore if you are doing a Psychology Minor with a Biology Major, the Gen Ed requirements of the Faculty of Science would apply. Similarly, a Double Major in Biology and Psychology would have Gen Eds determined by the Faculty of Science, whereas a Double Major in Psychology and Biology would have Gen Eds determined by the Faculty of Health.

- **1000 LEVEL BASIC SCIENCE REQUIREMENTS:** All BSc degrees require the completion of 15 credits of 1000-level science courses, which include 6 credits from math, 3 credits from computer science and engineering (CSE), and 6 credits from the following: physics (PHYS), biology (BIOL), and chemistry (CHEM). Students should refer to the degree worksheets for the list of specific courses.
- **ADDITIONAL SCIENCE CREDITS OUTSIDE THE MAJOR:** A minimum of 9 science elective credits must be taken in the Science disciplines* outside the major that includes all Faculty of Science and Engineering (FSE) courses and most Kinesiology (KINE) courses. Of these 9 science credits, 3 science credits must be taken at the 2000 level or above outside the psychology major, and another 6 science credits outside the major at any level.

NOTE: *These 9 science elective credits are not required for Double Major, Major/Minor combinations.*

*Current Science disciplines are: Biology (BIOL), Biochemistry (BCHM), Biophysics (BPHS), Chemistry (CHEM), Computer Science (CSE), Earth and Atmospheric Science (EATS), Geography (GEOG), Kinesiology and Health Science (KINE), Mathematics and Statistics (MATH), Physics and Astronomy (PHYS), Psychology (PSYC), Science and Technology Studies (STS).

- **ELECTIVE REQUIREMENTS:** Course selection for the elective credits may be science or non-science courses used to fulfill the science and upper-level requirements.

- **RESIDENCY REQUIREMENT:** A minimum of 30 course credits, and at least half (50 per cent) of the course credits required in the major/minor must be taken at York University.
- **UPPER-LEVEL REQUIREMENTS: To enrol in 4000-level courses in psychology students must have honours standing (minimum CGPA 5.00), completed 84 credits and have completed the prerequisites for the 4000- level courses** (Please see page 53 for details).

For the 120-credit BSc (Honours, Specialized Honours), students must complete 42 credits at the 3000 or 4000 level. This includes 18 credits at 3000 or 4000 upper level courses required by the major; a minimum of 12 credits in psychology must be at the 4000 level. Included in the 12 credits at the 4000 level must be the completion of a thesis with an individual supervisor (PSYC 4000) or in a seminar course format (PSYC 4170) or in a community-based research format (PSYC 4175), and at least six additional 4000-level credits in psychology. **NOTE:** *Specialized Honours students conduct an individual thesis research project with a supervisor and enrol in PSYC 4001. Any other specific information on the upper-level requirements for other Honours BSc degrees, e.g. Honours Double Major, or Honours Major/Minor when psychology is the major or minor, is included on the individual worksheets.*

For the 90-credit BSc, students must meet the upper-level requirement, which is 18 credits at the 3000 or 4000 level; a minimum of 12 credits in psychology must be at the 3000 or 4000 level.

- **CUMULATIVE GPA (CGPA) REQUIREMENT:** Students intending to

graduate with an **Honours degree** must complete a total of at least 120 credits with a minimum CGPA of 5.00 (C+). Successful applicants to the **Specialized Honours program** must maintain a minimum CGPA of 7.00 (B+) and complete a total of at least 120 credits with a minimum overall cumulative grade point average of 7.00 (B+). If students in the specialized honours program do not maintain the CGPA of 7.00 then they will be automatically moved into the Honours program. They will graduate with an honours degree as long as they do not drop below the CGPA of 5.00. Students intending to graduate with a **90-credit BSc degree** must complete a total of at least 90 credits with a minimum CGPA of 4.00 (C).

The degree worksheets that follow specify degree requirements as of September 2012. These worksheets have been provided to supplement and remind students of important details contained in the University Calendar-the official document of the University. **For complete information, please consult the University Calendar at <http://calendars.registrar.yorku.ca>.**

NOTE: *These worksheets may not work as well for psychology students who formerly were mature or part-time students in the Atkinson Psychology program, or who are transferring from another faculty at York University or from another university. Such students may have taken courses whose names or course codes have changed at York University, or may have transfer credits from another faculty or university. To ensure that you are properly informed about your degree requirements, please make an appointment with the psychology adviser for the undergraduate program or the director of the undergraduate program*

York-Seneca Rehabilitation Services CERTIFICATE PROGRAM

This program is offered jointly by York University and Seneca College of Applied Arts and Technology. It prepares undergraduate students with a background in psychology to work in a variety of rehabilitation fields by integrating academic training in health sciences, and practical field experience. Graduates receive a BA/BSc or an Honours BA/Honours BSc degree at York in conjunction with a joint York-Seneca Certificate in Rehabilitation Services.

A full-time student in the joint program would normally require four years of study for a BA or BSc degree, and five years of study for an Honours BA or Honours BSc degree. The extra year of study allows the student to complete five full-year Seneca courses, in addition to fulfilling the requirements for their undergraduate degree. In addition to in-class academic instruction, the student is required to complete two full year (September to April) practica involving a total of 800 hours of supervised fieldwork in each of the three major domains of rehabilitation: physical, emotional and developmental. Practicum placements can be tailored to each student through discussion with the practicum coordinator.

Admission Requirements

Students who wish to enter the York-Seneca Rehabilitation Services Certificate program should apply to the psychology department in the year preceding the final year of their BA or BSc degree program. While the program is targeted to undergraduate in the Psychology program, students in the Health Sciences and Kinesiology program may also apply provided the required psychology courses for the joint program can be met.

The application deadline is normally in early March. In order to be eligible to apply, applicants must have:

- completed 60 University-level credits towards a BA or BSc or 90 University-level credits towards an Honours BA or Honours BSc with a minimum cumulative grade point average of 5.00 (C+);
- completed AS/PSYCH 1010 6.0 (Introduction to Psychology course) with a minimum grade of C;
- fulfilled the General Education requirements of York University;
- good intellectual ability, emotional stability and a strong interest in working with individuals with various types of disabilities
- previous employment or volunteer work experience in the field of rehabilitation is recommended, but not required

In order to be considered for admission, all applicants must submit a complete application (i.e. application form, official transcripts and two letters of recommendation). Students from other universities should contact ysrehab@yorku.ca for further information about applying to this program.

Further information about this program and online instruction applications are available at the following Web site:

NOTE: *In addition to completing the above courses, students must also fulfill the specific degree requirements for the 90 or 120 credit BA/BSc programs in which they are enrolled. For a detailed description of the degree requirements please refer to the Programs of Study descriptions for the Major.*

PART C: POLICIES AND PROCEDURES

Code of Student Rights and Responsibilities

York University is a place of research, teaching and learning, where people value civility, diversity, equity and respect in their interactions with one another. Freedom of speech, freedom of association, freedom to study and to learn, freedom to engage in research and the freedom to write and to publish all are recognized as central to the mission of the institution. These values can be meaningful and these freedoms fully realized only in an atmosphere of safety and security.

Since their inception, universities have been recognized as clearly distinguishable communities within the larger community and have dealt with issues of misconduct internally. Under the York University Act, 1965, 13(2)(c), the president has the power to formulate and implement regulations governing students and student activities. The president has assigned to the vice-president students, through the Office of Student Conduct and Dispute Resolution, the responsibility for the administration of this Code of Student Conduct. This code has been developed through extensive consultation with students, staff and faculty, and affirms the stated values of equity and respect. It is based on a model that supports a progressive discipline approach, which encourages appropriate conduct.

The process the code outlines for dealing with transgressions is designed to be perceptibly fair, easy to understand and transparent. In addition, the sanctions it proposes have been developed through community consultation and are understood to be reasonable and suitable for a wide variety of misconduct. Wherever possible and appropriate, sanctions will be corrective rather than punitive.

Students are required to familiarize themselves with the Student Code of Conduct online at <http://www.yorku.ca/oscr/codeofrr/>.

Academic Honesty

A central purpose of the University is to teach students to think independently and critically. Breaches of academic honesty run counter to this purpose and violate the ethical and intellectual principles of the University; they are therefore subject to severe penalties.

York University has policies on plagiarism, cheating, and other forms of breaches of academic honesty. See details at <http://www.yorku.ca/academicintegrity/students/>. These policies apply to students enrolled in the psychology program. Below is a succinct summary of definitions, procedures and penalties.

Definitions, Procedures and Penalties

The following procedures are applied within the Faculty of Health. All provisions of the Senate Policy on Academic Honesty also apply. References to “students” in the following regulations should be taken to include applicants for admission to the Faculty of Health and former York University students, as well as those who are currently registered at York University. The following list of offenses is *not* exhaustive; consult also the definitions contained in the Senate Policy on Academic Honesty. The University’s regulations on non-academic discipline may also apply. Some academic offences constitute offences under the Criminal Code of Canada; a student charged under University regulations may also be subject to criminal charges. Under these regulations, the Faculty of Health may also lay a charge of breach of academic honesty against its students who are accused of offences against other educational institutions. If students are uncertain whether a course of action might constitute a breach of academic honesty, they should consult the instructor(s) concerned in advance.

Plagiarism

Plagiarism is the presentation of work as one's own, which originates from some other unacknowledged source. In examinations, term papers and other graded assignments, verbatim or almost verbatim presentation of someone else's work without attribution constitutes

plagiarism. This is deemed to include the presentation of someone else's argument in the student's own words, as if it were her or his own, without acknowledgement.

Two particular forms of plagiarism are of special concern in psychology. The first is copying someone's words without using quotation marks. When a student copies another author's words, even if it is only a portion of a sentence, the student must enclose those words in quotation marks and give a page number in citing the source of the quotation. The second particular form of plagiarism is taking someone's writing and translating it into one's own words without acknowledging the original author. Of course, summarizing or paraphrasing another writer's work is perfectly legitimate, but the original author must be cited in the body of the student's own writing; just putting the author's name in the reference list is not enough.

In cases where students are unsure whether they are plagiarizing, providing full citation information is the safest approach. Asking the instructor in advance can also clarify uncertainty.

Cheating

Cheating is defined as

- the unauthorized giving or receiving or utilizing, or attempt at giving or obtaining or utilizing, of information or assistance during an examination. (References to examinations also include tests.)
- the unauthorized obtaining or conveying, or attempt at obtaining or conveying, of examination questions.
- giving or receiving assistance on an essay or assignment, which goes beyond that sanctioned by the instructor. (This includes the buying and selling of, and attempt at buying or selling of, essays and/or research assistance relating to course assignments.)
- impersonating someone else or causing or allowing oneself to be impersonated in an examination, or knowingly availing oneself of the results of impersonation.
- presenting a single piece of work in more than one course without the permission of the instructors involved.

NOTE: *These regulations are not intended to discourage cooperative projects among students. Students are expected to obtain instructors' permission in advance for cooperative projects and for the submission of a single piece of work for two different courses.*

Other Forms of Breaching Academic Honesty

The following constitutes a breach of academic honesty: making false claims or statements, submitting false information, altering official documents or records or attempting or causing others to do or attempt any of the above, so as to mislead an instructor or an academic unit, program, office or committee as to a student's academic status, qualifications, actions or preparation.

Theft of Intellectual Property: (York University Student Code of Conduct for details) specifically prohibits a student's theft of intellectual property, which includes recording a course director's lecture without permission or taking lecture material provided for a student online, modifying it and/or using it for a student's own personal use or gain. The material provided by a course director is to be used only for students' personal study when they take the course for which it was created. Use in any other way could result, at the minimum, in sanctions in accordance with the York University Student Code of Conduct and, at the maximum, will be breaking federal, provincial or municipal laws and will be acted on accordingly.

Academic Integrity Tutorial and Quiz

All students are strongly advised to take the Faculty of Health's Academic Integrity Tutorial and Quiz, which may be found at: <http://www.yorku.ca/health/yquiz/academicintegritytutorial.pdf>. Many Psychology courses will require students to complete the quiz as part of the course requirements.

Grades and Grading Schemes

Except for courses taken under the pass/fail option (more information is available online at the Current Students Web site), academic courses in the Faculty of Health are graded according to the following scale. The grade point values are used to compute averages.

NOTE: Only courses taken at York University are included in the grade point average. The percentages indicated are not part of the official grading scheme and are meant to be used as guidelines only. The letter-grade system is the fundamental system of assessment of performance in undergraduate programs at York University.

Grade	Grade Point	Percent Range	Description
A+	9	90 – 100	Exceptional
A	8	80 – 89	Excellent
B+	7	75 – 79	Very Good
B	6	70 – 74	Good
C+	5	65 – 69	Competent
C	4	60 – 64	Fairly Competent
D+	3	55 – 59	Passing
D	2	50 – 54	Marginally Passing
E	1	Marginally below 50%	Marginally Failing
F	0	Below 50%	Failing

The grading scheme for a course (including type, weight and due date for assignments, essays, exams etc) will be announced in class and made available in writing within the first two weeks of class.

Graded Feedback

Under normal circumstances, you will receive graded feedback worth at least 15% of the final grade for the fall, winter or summer session, and 30% for full-year courses offered in the fall/winter session, before the final withdrawal (drop) date from a course without receiving a grade, with the following exceptions:

- graduate or upper level undergraduate courses where course work typically, or at the

instructor's discretion, consists of a single piece of work and/or is based predominantly (or solely) on student presentations (e.g. honours theses or graduate research papers not due by the drop date, etc.);

- practicum courses;
- ungraded courses;
- courses in Faculties where the drop date occurs within the first 3 weeks of classes;
- courses which run on a compressed schedule (a course which accomplishes its academic credits of work at a rate of more than one credit hour per two calendar weeks)

GPA Calculation

Your overall or Cumulative Grade Point Average (CGPA) is determined by multiplying the total credits for each course you have taken by the grade point earned in the course. Add up the grade points earned in all courses and the total number of credits taken. The CGPA is determined by dividing the total grade points by the total credits. If you have repeated any course, include only your 2nd grade and credits for the course in this calculation.

You can determine your CGPA using the on-line GPA calculator at:

<http://health.info.yorku.ca/current-student-information/calculate-your-gpa/> You can also use the on-line reverse GPA calculator at the same link to determine the grades required in remaining courses in order to attain a desired CGPA.

Academic Petitions

A petition is a formal request for the waiver of a Faculty of Health regulation or deadline. Students have the right to petition with reasonable grounds for special consideration. Two of the most common petitions are late withdrawal, i.e., a request to remove a course from the transcript, and deferred standing, i.e. a request to write a missed final exam or to submit final assignments. Workshops about the petitions process are available. The petitions process and forms can be found at <http://health.info.yorku.ca/current-student-information/petitions/>

PART D: COURSES

2013-14 Lecture Schedule and Supplemental Calendar

Changes will be posted on the bulletin board across from room 249 BSB. **Students should check this board or the online lecture schedule at <http://psyc.info.yorku.ca/exam-lecture-schedules> before finalizing their timetables.** Changes will also be reflected in addendum copies available in the Department of Psychology Undergraduate Office.

First-year Required Course in Psychology

Introduction to Psychology (1010 6.00) is a prerequisite (or corequisite in the case of 2020 6.00, 2021 3.00 and 2022 3.00) for all 2000-, 3000- and 4000-level courses in psychology. **In order to pursue further studies in psychology, a student must pass Introduction to Psychology (1010 6.00) with a minimum grade of C (4.00).** Students who fail to complete PSYC 1010 6.00 with the required minimum grade will not be eligible to take upper-level psychology courses. Non-majors and students who are completing a minor degree and want to take psychology courses as electives must also follow this rule.

Important Information Regarding Statistics Course Credit Exclusion and Substitution

NOTE 1: *Students who discontinue registration in Psychology 2020 6.00 at the end of the fall term may not petition for credit for a half course in statistics.*

NOTE 2: *Course credit exclusions (CCEs) may not be substituted for PSYC 2020 6.00 to satisfy psychology degree requirements unless approved as acceptable substitutes by the department and faculty. (See the list below.) Students cannot take PSYC 2020 6.00 if they have taken another statistics course (in any department/faculty). See the University Calendar for the list of CCEs.*

NOTE 3: *Only courses specified in the following list may be substituted for the PSYC 2020 6.00 requirement. Some of these courses are not a substitution but a CCE only (see list). Six credits are required for substitution except as indicated below:*

*PSYC 2021 3.00 and 2022 3.00

3890 6.00 / 3890 3.00 INDEPENDENT STUDY

Prerequisites: PSYC 1010 6.00, with a minimum grade of C. Students should have completed at least 36 university credits overall.

NOTE: *This course is not accessible online until the student submits a completed and signed Independent Study Agreement Form to the Psychology Undergraduate Office, Room 291/292 Behavioural Science Building, to enrol in this course.*

Students may arrange to do an independent study course with a faculty member from one of the two Psychology Departments: HEALTH or GLENDON. This allows students and professors to work in areas of psychology that lie outside the usual course offerings. An independent study course may be based on library or empirical research or a combination of the two. An independent study cannot have, as its major focus, a practicum experience in an applied setting. Guidelines for Independent Study Courses and Independent Study Agreement Forms may be picked up from the Psychology Undergraduate Office (BSB 291/292) or downloaded from the *Forms* section of Psychology Undergraduate Program website <http://psyc.info.yorku.ca/forms/>

If you wish to do an independent study course, you must find a faculty member who is willing to supervise you. A list of all faculty members with their areas of interest is available from the Psychology Undergraduate Office, 291/292 BSB or you can use the Faculty Directory link on the Psychology Department website (<http://psyc.info.yorku.ca>) to learn more about faculty members' research interests and availability. Not all faculty members are available to supervise independent studies every year. If you are successful in finding a faculty supervisor, you must work out the details of the course with the faculty member according to the guidelines, and complete and sign the Independent Study Agreement. **Then take the completed agreement to 291/292 BSB** when enrolment begins in the spring (in accordance with published enrolment dates) or before the last day to enrol in a course with written permission of the course instructor (see <http://www.registrar.yorku.ca/enrol/dates/fw13.htm> for the dates).

NOTE: *Students may take **one full course (6.00 credits)** independent study course **or two half courses (3.00 credits)** in each academic session.*

SCIENCE STUDENTS: Students beginning their BSc prior to September 2012 should note that some topics chosen for the Independent Study PSYC 3890 6.00 (3890 3.00) course **may not** be eligible for science credit. An abstract indicating the methodology should be submitted by the student to the psychology undergraduate director for confirmation that it will be counted for science credit.

Access Specifications: NA.

4000-Level Courses

To enrol in 4000-level courses, students must complete their 4000-level course prerequisites and a total of 84 credits. Please read the following information for details.

- All 4000-level psychology courses require the following general prerequisites or substitutes:
 - PSYC 1010 6.00, with a minimum grade of C.
 - PSYC 2030 3.00.
 - PSYC 2021 3.00 or PSYC 2020 6.00 or substitutes.
- Before enrolling in PSYC 4000 6.00, PSYC 4001 6.00, PSYC 4170 6.00 or PSYC 4175 6.00, students must complete a full year of statistics, i.e. PSYC 2020 6.00 or substitutions.
- Before enrolling in PSYC 4001 6.00, students must complete PSYC 3010 3.00 or a substitute course.

Most 4000-level courses require completion of additional 2000-level or 3000-level specific course prerequisites. Students must make sure they have completed the other listed prerequisites, or their enrolment in the course will be cancelled and they may lose their tuition fee. To determine what these other course prerequisites are, please see the 4000-level course descriptions in this supplemental calendar

NOTE: *Students admitted into the Faculty of Health as of F/W 2006 will be required to complete PSYC 2021 3.00 AND PSYC 2030 3.00 or a substitute in order to complete a minor in psychology.*

NOTE: *PSYC 3010 3.00 Intermediate Research Methods **cannot** be taken by students who have passed or are taking PSYC 4000 6.00, PSYC 4001 6.00, PSYC 4170 6.00 or PSYC 4175 6.00.*

4000 6.00 HONOURS THESIS

Prerequisites: PSYC 1010 6.00 or AK/PSYC 2410 6.00, with a minimum grade of C, and PSYC 2020 6.00 or substitutes and PSYC 2030 3.00 or substitutes. Students must be in an Honours program in Psychology and have completed at least 84 credits (excluding education courses). Not open to special students, or students completing a minor in psychology or students admitted into the Specialized Honours program in Psychology as of September 2008.

Course Credit Exclusions: PSYC 4170 6.00, PSYC 4175 6.00, PSYC 4001 6.00, AK/PSYC 4700 3.00, AK/PSYC 4800 6.00, GL/PSYC 4000 6.00.

NOTE: *This course is not accessible to enrol in online until the student submits the completed and signed Honours Thesis Agreement Form (see below) to the Psychology Undergraduate Office, Room 291/292 BSB.*

General Description: This course gives students the opportunity to carry out and report an original piece of research under the supervision of a faculty member. The nature of the Honours thesis is described in the *Psychology Honours Thesis Manual*, available from Room 291/292 BSB or online at <http://psyc.info.yorku.ca/honours-students>. The thesis project may be empirical, historical or theoretical. The specific terms of the Honours thesis should be worked out with the supervisor. It is the student's responsibility to find a supervisor in the Faculty of Health Psychology Department who is willing to serve as the thesis supervisor. Ideally, these arrangements should be made in the spring or summer preceding the start of classes. When the student and the supervisor have come to an agreement on the subject of the thesis, both must sign the PSYC 4000 6.00 Thesis Agreement Form. When the form is completed and signed, the student should return it to Room 291/292 BSB so that he or she can complete registration.

Students interested in doing an Honours thesis should be seeking an Honours thesis supervisor in the spring before enrolling in PSYC 4000. Those who do not have a supervisor by the start of their enrolment window should complete the psychology Honours student data sheet (available at the back of the

Honours student handbook that can be picked up in Room 291/292 or found online at <http://psyc.info.yorku.ca/honours-students> and submit it to the undergraduate office where it will be kept on file for available faculty to review. Students can also use a copy of the data sheet to distribute to the faculty with whom they are interested in working. Enrolment in the thesis course can be completed in the fall, but every effort should be made to complete the thesis contract by early September, or as soon as possible.

Information sessions for Honours students will be held on Mondays from 2:30pm to 5:30pm during the 2013-14 academic year. These sessions will deal with various topics of concern to Honours students who are conducting their thesis or who will be applying to graduate school. Topics include the following: choosing between PSYC 4170 6.00 and PSYC 4000 6.00, writing the GRE, applying for grad school scholarships, writing in APA style, creating a poster etc. In addition, all Honours students should go <http://psyc.info.yorku.ca/honours-students> for tips and web links on the aforementioned topics, as well as information on doing a thesis, the ethics approval process, help with statistics etc. The list of information sessions (and where they are located) is also posted in the Psychology Undergraduate Office in 291/292 BSB.

SCIENCE STUDENTS: Students beginning their BSc prior to September 2012 should note that some topics chosen the Honours Thesis (PSYC 4000 6.00, PSYC 4001 6.00) and the Advanced Research in Psychology (PSYC 4170 6.00), **may not** be eligible for science credit. An abstract indicating the methodology should be submitted by the student to the psychology undergraduate director for confirmation that the thesis may be counted for science credit.

Access Specifications: This course is strictly for 4th year honour students with psychology as the major.

4001 6.00A (Y) SPECIALIZED HONOURS THESIS

Prerequisites: PSYC 1010 6.00 or AK/PSYC 2410 6.00, with a minimum grade of C; PSYC 2030 3.00 or AK/PSYC 2530 3.00; PSYC 2021 3.00 and PSYC 2022 3.00 or PSYC 2020 6.00 (or substitutes); PSYC 3010 3.00; PSYC 3031 3.00.

Note: *Students must obtain the written approval of an Honours thesis supervisor before registration is permitted. Forms for this purpose are available in the undergraduate office and must be completed and signed by the student and supervisor before the undergraduate office will give the student access to enrol in this course online.*

Other Information: All of the above prerequisites must be completed before enrolling into PSYC 4001 6.00.

Course Credit Exclusions: PSYC 4000 6.00, PSYC 4170 6.00, PSYC 4175 6.00, GL/PSYC 4000 6.00, AK/PSYC 4700 3.00 (before Summer 2002), AK/PSYC 4800 6.00 (before Summer 2002).

General Description: Students carry out an individual piece of psychological research in consultation with a thesis supervisor and write a thesis. Some Honours thesis topics may not be eligible for science (SC) credit. In addition, students attend a seminar course.

Cont'd...

4001 6.00A (Y) SPECIALIZED HONOURS THESIS Cont'd...

Class Format: The seminar component to this course has some mandatory and some non-mandatory components. The mandatory component of the seminar is worth 35% of the final thesis grade. This would comprise attendance at sessions for oral presentations of the thesis proposals of other students, attendance at a session on ethics, presenting the thesis proposal orally and presenting the thesis on poster day.

There will be other non-mandatory components that students can attend or not, e.g. sessions on applying to grad school, writing the GRE, scholarship applications, creating posters, and assistance with experimental methodology, analysis and APA writing style. The learning objectives for the seminar component are to develop understanding of ethics in research, oral presentation skills and critical reading and writing skills.

Requirements: The thesis component is worth 65% of the final grade that will be assigned by the Honours thesis supervisor. The seminar component is worth the other 35% of the grade and will be assigned by the seminar course director. Requirements for the seminar will comprise attendance at sessions for oral presentations of the thesis proposals of other students, as well as a session on ethics. Students are also required to give an oral presentation of their thesis proposal, provide a written draft of their final paper and present their thesis as a poster during the undergraduate thesis poster day.

Textbooks: There is no specified reading list as it changes for each student and topic under study. The only books that students might want access to would be the APA manual and perhaps the SPSS manual. However, these specifications are idiosyncratic for each person running the seminar(s).

Other Information: PSYC 4001 is open only to students who have been accepted into the Specialized Honours program as of September 2008. The number of contact hours for the thesis component will vary, depending on the research project and the thesis supervisor. The seminar component will meet more regularly in the first term in order to ensure students receive appropriate feedback and guidance on their proposals and introduction and methods, and have access to a seminar on ethics; students will meet less regularly as a group in the second term, when they are actively collecting their data.

Access Information: Only for students who have applied to and been accepted into the revised specialized honours program.

4175 6.00 ADVANCED COMMUNITY-BASED APPLIED RESEARCH

An advanced research course in which research is conducted in partnership with community agencies and organizations in order to address community partner needs in broad areas within health and social psychology. Students integrate psychological theories and methods with the design, data collection, analysis, presentation and write up of applied research projects. **Prerequisites:** PSYC 1010 6.00 or AK/PSYC 2410 6.00, with a minimum grade of C; PSYC 2030 3.00 or AK/PSYC 2530 3.00 or substitute; PSYC 2020 6.00 or substitutes. Students must be in an Honours program in Psychology and have completed 84 credits (excluding education courses). **Course Credit Exclusions:** PSYC 4000 6.00, PSYC 4170 6.00, AK/PSYC 4700 3.00, AK/PSYC 4800 6.00, GL/PSYC 4000 6.00.

Class Format: lectures, off-campus data collection

Requirements: Group projects, class presentations, written assignments, poster, final paper.

Other Information: Students will only work on research projects identified by community partners.

NOTE I: It is strongly recommended that students complete PSYC 3010 before enrolling in this course.

NOTE II: Students will need to complete a standard survey prior to being eligible to enrol into this course. Please contact the instructor via email for more information: mhy nie@yorku.ca.

4890 6.00 / 4890 3.00 INDEPENDENT STUDY

Prerequisites: PSYC 1010 6.00 or AK/PSYC 2410 6.00, with a minimum grade of C; PSYC 2030 3.00 or AK/PSYC 2530 3.00 or substitute; one of PSYC 2020 6.00, PSYC 2021 3.00, AK/PSYC 2510 3.00 or substitutes; Students must be in an Honours program in Psychology and have completed 84 credits (excluding education courses).

NOTE: *This course is not accessible online until the student submits a completed and signed Independent Study Agreement Form to the Psychology Undergraduate Office, Room 292, Behavioural Science Building, to enrol in this course.*

Students may arrange to do an independent study course with a faculty member from one of the two Psychology Departments: HEALTH or GLENDON. This allows students and professors to work in areas of psychology that lie outside the usual course offerings. An independent study course may be based on library or empirical research or a combination of the two. An independent study cannot have, as its major focus, a practicum experience in an applied setting. Guidelines for Independent Study Courses and Independent Study Agreement Forms may be picked up from the Psychology Undergraduate Office (BSB 291/292) or downloaded from the *Forms* section of Psychology Undergraduate Program website <http://psyc.info.yorku.ca/forms/>

If you wish to do an independent study course, you must find a faculty member who is willing to supervise you. A list of all faculty members with their areas of interest is available from the Psychology Undergraduate Office, 291/292 BSB or you can use the Faculty Directory link on the Psychology Department website (<http://psyc.info.yorku.ca>) to learn more about faculty members' research interests and availability. Not all faculty members are available to supervise independent studies every year. If you are successful in finding a faculty supervisor, you must work out the details of the course with the faculty member according to the guidelines, and complete and sign the Independent Study Agreement. **Then take the completed agreement to 291/292 BSB** when enrolment begins in the spring (in accordance with published enrolment dates) or before the last day to enrol in a course with written permission of the course instructor (see <http://www.registrar.yorku.ca/enrol/dates/fw13.htm> for the dates).

NOTE: *Students may take one full course (6.00 credits) independent study course or two half courses (3.00 credits) in each academic session.*

SCIENCE STUDENTS: Students beginning their BSc prior to September 2012 should note that some topics chosen for the Independent Study PSYC 4890 6.00 (4890 3.00) course **may not** be eligible for science credit. An abstract indicating the methodology should be submitted by the student to the psychology undergraduate director for confirmation that it will be counted for science credit.

Access Specifications: NA.

PART E: RESOURCES AND STUDENT LIFE

Many resources are available to students, either through the Web or on campus. Faculty of Health has created a Student Success Program page that provides guidance and academic support for succeeding in courses; making connections at York with various clubs and organizations; where to get advice on academics, financial, career, personal matters and more. See details at <http://health.info.yorku.ca/student-success-programs>. See below for further resources.

Undergraduate Psychology Students Association (UPSA)

The Department of Psychology at York University is the largest one in North America. As a result, our undergraduate program is quite large. A student therefore may feel lost attending first- and second-year classes with large numbers of students. The student-run organization UPSA is dedicated to giving students an opportunity to meet other students and faculty in the program, and to offering members information seminars and academic support to help them succeed. To learn more about UPSA or to join, visit the association office at 126B Calumet College, e-mail UPSA@yorku.ca, or visit the Web site at www.upsayorku.ca

Mature Students' Associations

The Atkinson Centre for Mature and Part-time Students (ACMAPS) was established in 2007. The mandate of the centre includes raising awareness of issues that affect mature and part-time students across the University, leading and facilitating initiatives responding to the needs of these students, and advocating on their behalf. The establishment of ACMAPS confirms York University's ongoing commitment to welcome and to serve the needs of mature and part-time students across all faculties. Students can visit ACMAPS at 111 Central Square, phone 416-736-5770, or e-mail acmaps@yorku.ca.

York University Mature Students Organization (YUMSO) helps mature students adjust to and enjoy the back-to-school experience, offers mentorship and advice, and provides a communications network. Since the creation of ACMAPS, YUMSO has worked with the centre on events, advocacy, mentoring and more. The organization is located at 113B Vanier College, and queries can be e-mailed to yumso@yorku.ca.

The Writing Department

Practical instruction is offered in all aspects of writing via individual tutoring, electronic tutoring, drop-in instruction, credit courses, and a number of group workshops that include topics such as major elements of effective essay writing, critical thinking and American Psychological Association style. (See <http://www.yorku.ca/laps/writ/centre/workshops/asp> and <http://www.yorku.ca/laps/writ/resources.html> for a list of writing workshops and resources)

The Web site at <http://www.yorku.ca/laps/writ/index.html> provides students with up-to-date information about the services provided, and links to writing resources. For general inquiries or to book an appointment, go to S329 Ross Building or call 416-736-5134.

Libraries

The libraries at York University provide resources that include borrowing/renewing privileges and help with research. For details, go to <http://www.library.yorku.ca> and follow the appropriate links.

Career Centre

The centre provides workshops and opportunities for students to learn how to build skills and experience, search for jobs, determine career goals etc. For further details, go to Suite 202, McLaughlin College, or call 416-736-5351, e-mail careers@yorku.ca or visit the Web site at www.yorku.ca/careers/students.htm.
