Sensation & Perception I  2220A - Online

INSTRUCTOR

Prof. Laurie Wilcox
Rm. Lassonde Building, B0003H
email: lwilcox@yorku.ca
tel: 66494

Office Hours: By appointment

Course Webpage: The course is hosted on the York Moodle site and will be available on the first day of classes https://moodle.yorku.ca

All course information will be posted on the above website. In the event of ANY disruption in the teaching schedule you are to go to this site for instruction and information.

Course Prerequisites: PSYC 1010  6.0 with a minimum grade of C.

TEACHING ASSISTANTS

Last name A to M
Eric Office hours by appointment  eric.at.york@gmail.com

Last name N to Z
Debora Office hours by appointment  debora09@yorku.ca

TEXTBOOK

Please note that we are using the 9th edition of the Goldstein Textbook. This is a required text, and other editions will not be acceptable. There is an electronic version available at CourseSmart if you cannot or do not want to buy a hard copy: http://www.coursesmart.com/sensation-and-perception-9th-edition/goldstein/dp/9781133958499

COURSE DESCRIPTION

The study of perception involves a complex combination of physiology, psychophysics, and cognition. In this course we will explore the major sensory systems focussing primarily on vision and hearing, using these topics as a framework.

Throughout the course, issues will be explored from an experimental perspective. Therefore, in some lectures we will cover the fundamental experimental paradigms used to study perception (psychophysics). Over the course of the term we will discuss different sensory systems in turn; in each instance time will be spent describing the stimulus (light, sound), the physiology of the receptors and subsequent cortical areas that are activated.
Very often what we perceive results not only from the information gathered by our sensory systems, but from our expectations and prior knowledge about the world we inhabit. As a result we will also study cognitive influences on perception and how they are identified and assessed.

*One of the primary goals of this course is to introduce you to many of the fascinating aspects of how we perceive the world around us. At the conclusion of this course you should appreciate how your sensory perceptions are ‘all in your head’.*

*A related, and important, aim is to provide a deeper understanding of how scientific methods are used to study perceptual processes. You will eventually be able to think through a perceptual experiment, understand the methodology used, and why.*

**Evaluation**

- **2 In-class Exams:** 90%  
  (multiple choice & short answer - 45% each)
- **Participation** 10%  
  (Discussion postings)

The Exams (1 & 2) will be based on the text and all lectures. Web-based materials will be included if mentioned in the lectures.

The Participation component consists of online postings make throughout the term on the course website. **Each student must make 10 meaningful posts over the term for full credit.** More information about the Participation component is on the main webpage for the course.
**TEST DATES**

Exam 1  June 8  Chapters 1-5  
Exam 2  June 28  Chapters 6-11  

**Dates to be confirmed**

There will be no final exam held during the final exam period for this course.

Please refer to the York University Religious Observance website for information regarding observed holidays and procedures:  
https://w2prod.sis.yorku.ca/Apps/WebObjects/cdm.woa/wa/regobs and the Important Dates site: http://www.registrar.yorku.ca/enrol/dates/su15.htm

The lectures will be made available in two clusters. 1-5 will be posted on May 16th, 6-11 will be posted after the first midterm.

**Missed exams**

According to University Policy, the only legitimate excuse for missing an exam is because of medical problems or exceptional circumstances. **If you cannot write an exam you must contact a TA BEFORE the start of the test.** If you do not speak to a person directly you must email them - if you don’t receive a response, email again. If
you are unable to contact someone during this 24 hour period, documentation accounting for the delay must be provided. Documentation verifying the reason for the missed exam (see below) must be provided either prior to or at the time of the make-up. Failure to provide appropriate documentation will result in a grade of 0 on the exam.

There will be no second dates for the make-up tests.

A. Tests or examinations missed on the grounds of medical circumstances must be supported by an Attending Physician’s Statement or a Statement by a Psychologist or Counsellor. The Attending Physician’s Statement must include (i) the full name, mailing address and telephone number of the Physicians, (ii) state the nature of the illness and its duration (i.e., specific dates covered), and (iii) an indication of whether the illness and/or medication prescribed would have seriously affected your ability to study and perform over the period in question.

B. Exams missed on the ground of exception non-medical circumstances must be supported by appropriate documentation, i.e., death certificates, obituary notice, automobile accident reports, airline/train/bus tickets/receipt for emergency travel (with date of booking on ticket), etc. Receipts from emergency travel must indicate destination, departure and return dates.

It is your responsibility to check with myself or the TA to make sure we know you have a legitimate reason to have missed a midterm. A conflict in another course during the time of the make-up is not an acceptable reason for missing the make-up (unless there is an exam in that course at that time).
