Note: All questions concerning the course should first be directed to the TA. Questions that cannot be answered by the TA will be forwarded to the course director.

Course Prerequisite(s): Course prerequisites are strictly enforced.  
- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.

Course website: http://www.yorku.ca/npark/memory_f_16

Course Description

This course will examine a range of cognitive and processes and will consider the experimental evidence that has helped to guide the development of theoretical formulations of how people perceive, understand, store, retrieve, and act on information. We will examine different conceptualizations of cognition and review experimental evidence from cognitively unimpaired and patient populations. Laboratory and/or classroom demonstrations will be conducted in order to clarify the methods, findings, and theories under discussion. During these demonstrations, students will act as research participants and may provide data for analysis.

The 3-hour class period will encompass some combination of lecture, activities, and breaks. Depending on the number of topics covered in a given lecture and the mood of the class, we will sometimes have a single 15-minute break in the middle; other times, there will be two 10-minute breaks.

Class attendance is important. Each session is intended to be interesting, challenging, and (hopefully) enjoyable for you. It is your own responsibility to find out what you missed. Thus, it is to your benefit to come to every class and to borrow notes from a fellow student when you do have to miss a class.
Learning Outcomes

Upon completion of this course, students should be able to:

1. Demonstrate in-depth knowledge in the psychology of memory.
2. Articulate trends in the psychology of memory.
3. Express knowledge of the psychology of memory in written form.
4. Describe and explain limits to generalizability of research findings in memory.
5. Demonstrate ability to relate information in memory to own and others’ life experiences.

Required Text

- Selected Readings

Recommended Text

This book is not required, but it does provide interesting and useful supplementary information, some of which will be presented in class.

Course Requirements and Assessment

There will be five quizzes, and they will be held during the scheduled class sessions. A final exam will be held during the scheduled exam period. The quizzes and the final exam will consist of multiple-choice and short-answer questions. The five quizzes together will count for 60% and the final will count for 40% of your final grade. Each quiz will last about 35 minutes and will test lecture material and readings from the previous two weeks. The final exam will cover all the course material. Your quiz grade will be calculated by determining the average of your three best scores from your quizzes (e.g., 60%, 80%, 70%, 0%, 55%); quiz grade = 70%)

Grading as per Senate Policy

The grading scheme for the course conforms to the 9-point grading system used in undergraduate programs at York (e.g., A+ = 9, A = 8, B+ = 7, C+ = 5, etc.). Assignments and tests* will bear either a letter grade designation or a corresponding number grade (e.g. A+ = 90 to 100, A = 80 to 90, B+ = 75 to 79, etc.)
(For a full description of York grading system see the York University Undergraduate Calendar -
http://calendars.students.yorku.ca/2016-2017/academic-and-financial-information/academic-
services/grades-and-grading-schemes

**Late Work/Missed Tests or Exams**

**Missed quiz.** As stated previously there are a total of 5 quizzes and your quiz grade, which
counts for 60%, will be based on your top 3 quiz grades. There will be no opportunity to write a
makeup quiz. If you miss a quiz your grade for that quiz will be 0% so it is in your best interest to
write all the quizzes. Please note that if you do not write any quizzes prior to the drop date, you
will have waived your right to receive feedback on your performance in this course prior to the
drop date. Students wishing to have their quizzes reviewed should contact their TA no later than
one week after the last class of the term. Students should be aware that their grade may be
unchanged or may be adjusted up or down.

**Final exam.** Students with a documented reason for missing a course test, such as illness,
compassionate grounds, etc., which is confirmed by supporting documentation (Attending
Physician Statement which can be found at: http://registrar.yorku.ca/pdf/attending-
physicians-statement.pdf) may request accommodation from the Course Instructor. Further extensions or
accommodation will require students to submit a formal petition to the Faculty.

**Add/Drop Deadlines**

**Cheating:**

DON’T DO IT!! The University does not look favourably on cheating of any kind, and the
penalties are very harsh for doing so. Become familiar with the rules and regulations regarding
cheating/plagiarism. These are published in the Undergraduate Programme Calendar.

**Academic Integrity for Students**

York university takes academic integrity very seriously, please visit an overview of Academic
Integrity at York University from the Office of the Vice-President Academic.

The following links will assist you in gaining a better understanding of academic integrity and
point you to resources at York that can help you improve your writing and research skills:

- [Information about the Senate Policy on Academic Honesty](#)
Test Banks:

The use of test banks is not permitted in this course and may be considered a potential breach of academic honesty. This includes but is not limited too; buying or selling test banks.

Electronic Devices During a Test/Examination:

Electronic mobile devices of any kind are not allowed during a test or examination. Students are required to turn off and secure any electronic mobile device in their bag which is to be placed under the chair while a test/exam is in progress. Any student observed with an electronic devise during a test/exam may be reported to the Undergraduate Office for a potential breach of Academic Honesty.

Academic Accommodation for Students with Disabilities:

While all individuals are expected to satisfy the requirements of their program of study and to aspire to do so at a level of excellence, the university recognizes that persons with disabilities may require reasonable accommodation to enable them to do so. The York University Accessibility Hub is your online stop for accessibility on campus. The Accessibility Hub provides tools, assistance and resources. Policy Statement

Policy: York University shall make reasonable and appropriate accommodations and adaptations in order to promote the ability of students with disabilities to fulfill the academic requirements of their programs.

The nature and extent of accommodations shall be consistent with and supportive of the integrity of the curriculum and of the academic standards of programs or courses. Provided that students have given sufficient notice about their accommodation needs, instructors shall take reasonable steps to accommodate these needs in a manner consistent with the guidelines established hereunder.

For Further Information please refer to: York university academic accommodation for students with disabilities policy
