Course Prerequisite(s): Course prerequisites are strictly enforced.
- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.
- HH/PSYC 2020 6.00 (Statistical Methods I and II) or substitutes
- HH/PSYC 2030 3.00 (Introduction to Research Methods) or substitutes
- Students must be in an Honours program in Psychology and have completed at least 84 credits (excluding (EDUC) education courses)

Course website: Moodle
Course Description

As an alternative to independent thesis research (AK/AS/HH/SC/PSYC 4000 6.00), this course offers structure, support and guidance for student research by means of regular seminar meetings. Some research topics may not be eligible for science (SC) credit.

Learning Outcomes

Upon completion of this course, students should be able to:

1. Use data analytic software for analysis of psychological data.
2. Design, execute, analyse and interpret results from a study examining a specific research question.
3. Express in written form psychological findings using APA style.
4. Express in written form, a research study in psychology.
5. Recognize limits of conclusions based on inferential statistics.
6. Apply ethical principles of the CPA code of ethics to their own research.

Specific Learning Objectives

This course is designed to give students the background to individually plan, execute, analyze and report a study of equivalent standard to an Honours B.A. thesis. The course will consist of three elements:
A. A basic refresher on research methods and analysis
B. Presentation and discussion of individual research proposals
C. Final design of projects, execution, analysis, and written report on the proposed research

Required Text  No texts are assigned to this course. Moodle will contain several documents.

Course Requirements and Assessment

Students must work in teams of 2–5 students from their own section (B,C,F or G) for collaborative purposes and data collection. If you are uncomfortable working in teams, enroll in other sections of 4170 or take 4000 or 4001. No marks will be registered for students who work alone. Each student will perform a literature search, develop their own hypotheses, present a research proposal, conduct the research, analyze the data, draw conclusions, present the findings in class, and hand in an individually written research report. Students will also review proposals and results of other students.

Additional Information:
1. Obtain a FAS computer account: see: http://mms.yorku.ca. This gives students access to the PsychLab and the SPSS programs required for their analysis.

2. Weekly classes will be held until Nov 16th. From Sept 12 - Oct 12 classes will focus on students discussing research areas of interest. From Oct 17th until Nov 9th about 2 hours per class will be dedicated to a review of Research Methods and Analysis taught in prerequisite courses. The first Jan class will be held on Jan 9 & 11 during which time we will learn SPSS, and practice SPSS in the lab. Classes in Jan/Feb will be held weekly in a Computer lab (TBA) until Feb 1st. After that, formal classes will only be held on March 6,8 (final paper requirements); and March 20, 22 (poster presentations).

3. Students should familiarize themselves with the very excellent Psychology Resource Centre Room 160 BSB. Check web address http://psycentre.apps01.yorku.ca/drpl/ for hours of operation and the excellent resources available such as tests, statistical support. The use of the URPP pool is not encouraged and will only be assessable under unusual circumstances.

4. Library Workshops covering PsycINFO, Web of Science (citation analysis), Mental Measurement Yearbook are available and strongly recommended.

5. Ethics Review: There are 3 forms required for ethics review. Ed completes Form 1, Students complete Form 2 and hand it in on the day of the proposals, Ed brings Form 3 to poster class for student signatures. All students are required to complete the Tri-Council Policy Statement (TCPS2) tutorial, available online. The certificate must be brought to the end of November proposal class. For more information: http://www.yorku.ca/health/psyc/ethicsv2.html#two.

**Grading as per Senate Policy**

The grading scheme for the course conforms to the 9-point grading system used in undergraduate programs at York (e.g., A+ = 9, A = 8, B+ = 7, C+ = 5, etc.). Assignments and tests* will bear either a letter grade designation or a corresponding number grade (e.g. A+ = 90 to 100, A = 80 to 90, B+ = 75 to 79, etc.)

(For a full description of York grading system see the York University Undergraduate Calendar - calendars.students.yorku.ca/2016-2017/academic-and-financial-information/academic-services/grades-and-grading-schemes)

**Late Work/Missed Tests or Exams**

Students with a documented reason for missing a course test, such as illness, compassionate grounds, etc., which is confirmed by supporting documentation (Attending Physician Statement which can be found at: http://registrar.yorku.ca/pdf/attending-physicians-statement.pdf) may request accommodation from the Course Instructor. Further extensions or accommodation will require students to submit a formal petition to the Faculty.

1. Proposals– team presentation in class - 20% If the proposal date is missed, students lose 5%, and will submit their proposal in writing.
2. SPSS statistical analysis of “dummy” data and interpretation - 10%.
   Based upon their hypothesis, students will create a dummy data set that mimics the data collection that they propose. Students use SPSS to analyse this dummy data set and submit the analysis and interpretation of the analysis. Although students are encouraged to work on the SPSS assignment as a team helping each other out, each student must complete their
own SPSS assignment. This assignment is to be e-mailed to the TA in a Word Document – The Deadline is Friday, Feb 3- midnight.

For every day/partial day including weekends that students miss the Feb 3 deadline, students lose 1 mark to the maximum of the 10 marks. If students follow-up and correct their assignment by Mar 1 based on TA feedback, they can get 5 marks automatically even if they missed the deadline and lost 'all their marks'. This gives students 30% of their final grade by mid-Feb (Proposals and SPSS), and encouragement to get the SPSS analysis right by the end of Feb. Since students have all of January to complete this assignment, the only acceptable medical/family situation will be a prolonged illness/situation. If the situation occurs on the last day of submission, they will have to forward all work done to that date.

SPSS Summary scoring guidelines

<table>
<thead>
<tr>
<th>Grade</th>
<th>Circumstance</th>
</tr>
</thead>
<tbody>
<tr>
<td>10</td>
<td>On time, no errors</td>
</tr>
<tr>
<td>6 - 9</td>
<td>[On time with errors] or [1 to 4 days late with no errors]</td>
</tr>
<tr>
<td>5</td>
<td>5 or more days late, no errors</td>
</tr>
<tr>
<td>1 - 4</td>
<td>[On time with errors] or [5 to 20 days late with errors]</td>
</tr>
<tr>
<td>0</td>
<td>21 or more days late</td>
</tr>
</tbody>
</table>

3. Posters presented in class. 20% If the poster date is missed, students lose 5%, and will submit their poster at another date but prior to April 14. Submissions after April 14th will not be graded.

4. Final written paper submitted with a self-addressed stamped envelope in Room (To Be Announced). 50%

Section and TA should be clearly marked on paper. According to University deadlines, papers are due on April 4th, but we have extended this to 1:00 pm April 14th. Any papers handed in past that deadline are considered late papers. For acceptable medical reasons with a medical note – obtain an official Deferred Status - no penalty as long as student sends their TA electronic copies of work done to date by the deadline. There will be a 5% per day late penalty (this is 2.5 marks per day based on 5% of the value of the paper - 50%) There will also be a 5% penalty per day for the weekend or holiday - if students submit their completed paper electronically, with a hard copy to the course secretary by noon the following Monday. By way of example, if a student contacts us on the Saturday following the due date with a finished paper electronically delivered to their TA, they lose a single day or 2.5 marks. If students only submit their completed papers on Monday, they lose 5 marks for Saturday, Sunday.

Electronic Device Policy
Electronic devices are allowed in class.

Attendance Policy
No attendance is taken.

Academic Integrity for Students
York university takes academic integrity very seriously, please visit an overview of Academic Integrity at York University from the Office of the Vice-President Academic.

The following links will assist you in gaining a better understanding of academic integrity and point you to resources at York that can help you improve your writing and research skills:

- Information about the Senate Policy on Academic Honesty
- Online Tutorial on Academic Integrity
- Information for Students on Text-Matching Software: Turnitin.com
- Beware! Says who? A pamphlet on how to avoid plagiarism
- Resources for students to help improve their writing and research skill

Academic Accommodation for Students with Disabilities:

While all individuals are expected to satisfy the requirements of their program of study and to aspire to do so at a level of excellence, the university recognizes that persons with disabilities may require reasonable accommodation to enable them to do so. The York University Accessibility Hub is your online stop for accessibility on campus. The Accessibility Hub provides tools, assistance and resources. Policy Statement

Policy: York University shall make reasonable and appropriate accommodations and adaptations in order to promote the ability of students with disabilities to fulfill the academic requirements of their programs.

The nature and extent of accommodations shall be consistent with and supportive of the integrity of the curriculum and of the academic standards of programs or courses.
Provided that students have given sufficient notice about their accommodation needs, instructors shall take reasonable steps to accommodate these needs in a manner consistent with the guidelines established hereunder.

For Further Information please refer to: York university academic accommodation for students with disabilities policy
