Course Prerequisite(s): Course prerequisites are strictly enforced
- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.

Course Credit Exclusions
Please refer to York Courses Website for a listing of any course credit exclusions.

Course website: Moodle

Course Description
The purpose of the course is to develop an understanding of psychological ideas and research relevant to education and to conceptualize their application to educational practice. Psychological constructs such as learning, cognitive processes, experience, motivation, and self-regulation will be used as bases for examining contemporary educational practice. The progressivist theories of John Dewey provide the starting point for our course. Dewey’s progressivist/constructivist approach will then be contrasted with traditional approaches to education, and considered in light of various contemporary challenges in fostering meaningful and democratic educational experiences.

Course Format
The course format consists of two hours of lecture on Tuesdays, 8:30-10:30 am (VH B), and one hour of small group discussions on Thursdays, 8:30-9:30 am (CLH A & B).

On Thursdays, students with surnames from A-Ki should meet at CLH A and those with surnames from Ko-Z at should meet at CLH B.
Program Learning Outcomes
Upon completion of this course, students should be able to:

1. Demonstrate in-depth knowledge in educational psychology.
2. Articulate trends in educational psychology.
3. Express knowledge of educational psychology in written form.
4. Describe and explain limits to generalizability of research findings in educational psychology.
5. Demonstrate ability to relate information in educational psychology to own and others’ life experiences.

Specific Learning Objectives
- Developing an ability to think critically about the pros and cons of a given educational approach.
- Explaining the relevance of psychological research findings for educational methods.

Required Texts

All other course readings will be provided on the class page on Moodle.

Description of Assignments

**Group Discussions.** A central feature of the course is the small-group discussion that takes place during the Thursday class meetings. In groups of four, students discuss questions and issues based on that week’s assigned reading. The purpose of this discussion is collaborative development of the group’s understanding of course concepts. Each group is asked to document their discussion, typically by keeping minutes of the discussion. These minutes are handed in to the course director or TA immediately after the discussion. Small group discussions are most productive when the participants have read weekly readings prior to the discussion. Therefore, students are expected to study the assigned readings before Thursday class meetings.

**Weekly Online Reflection Responses.** Following the Thursday class meetings, each student will post an individual reflection on at least one of the questions from the small-group discussion on Moodle’s discussion forum. The purpose of the online reflection responses is to motivate students to stay on schedule with the readings and to prepare them for examinations. The deadline to submit online reflection response is on Mondays at 11:59 pm. For example, the response for Sept 14th discussion should be submitted by Monday, Sept 18th at 11:59 pm. (see the late penalty on page 4)

**Course Project.** Students will be asked to watch one of the movies about education from the list of movies available on the Moodle website. The final paper in the course will be an analysis of the educational philosophy or philosophies evident in this movie. The student will be expected to draw on the various theories discussed in the course both to identify the dominant educational philosophy at work in the movie and to assess its application and effectiveness. More information about this assignment will be available later in the course. The purpose of the paper is to prompt students to critically apply the course concepts using a specific example of education. (See the late penalty on page 4)

**Examinations.** A midterm examination will be held in October, and a comprehensive three-hour final examination will be held during the December examination period. The purpose of examinations is to allow students to demonstrate their understanding of course concepts and ability to make meaningful connections among them. More information regarding the format of exams will be available later in the course.

**Grading as per Senate Policy**

The grading scheme for the course conforms to the 9-point grading system used in undergraduate programs at York (e.g., A+ = 9, A = 8, B+ = 7, C+ = 5, etc.). Assignments and tests* will bear either a letter grade designation or a corresponding number grade (e.g. A+ = 90 to 100, A = 80 to 89, B+ = 75 to 79, etc.)

(For a full description of York grading system see the York University Undergraduate Calendar - [Grading Scheme for 2017-18](#))
Late Work/Missed Tests or Exams

Students with a documented reason for missing a course test, such as illness, compassionate grounds, etc., which is confirmed by supporting documentation (Attending Physician Statement which can be found at: http://myacademicrecord.students.yorku.ca/pdf/attending-physicians-statement.pdf) may request accommodation from the Course Instructor. Further extensions or accommodation will require students to submit a formal petition to the Faculty.

The physician statement must be dated within two days of the missed exam. A note dated a week after the examination date stating that you were sick on the day of the exam will not suffice. Tests or examinations missed on the grounds of non-medical circumstances must be supported by appropriate documentation (i.e., death certificates, obituary notice, automobile accident reports, airline/train/bus ticket/receipts with date of booking on ticket, etc.). Airline/train/bus ticket/receipts for emergency travel must indicate destination, departure and return dates.

Missed Test Procedure

In terms of a missed test or exam, the student must contact the instructor and TA by e-mail within 48 hours of the examination. Be sure to clearly state your name, student number, course and contact information. If you are unable to contact the course instructor or TA within this timeframe, subsequent documentation accounting for the delay must be provided.

In the case of a make-up test/exam, the student must be prepared to write within the week following the missed test. It is the student’s responsibility to check with the instructor, TA, and/or course website as to the date/time of the make-up. A conflict in another course during the time of the make-up is not an acceptable reason for missing the make-up. Missed make-ups must be supported by appropriate documentation. Failure to provide appropriate documentation will result in a grade of F on the missed test.

Important New Information Regarding Missed Tests

For any missed tests or late assignments, students MUST complete the following online form which will be received and reviewed in the Psychology undergraduate office.

HH PSYC: Missed Tests/Exams Form. Failure to complete the form within 48 hours of the original deadline will result in a grade of zero for the test/assignment.

Late Penalty on Course Project Paper

The penalty for late course project papers will be a letter grade per day late (B+ becomes C+), so it is recommended that students begin writing their papers early.

Late Online Reflection Submissions

Online reflection responses should be submitted by Monday at 11:59 pm each week. Responses submitted after this deadline won’t be accepted.

*Note: You may withdraw from a course using the registration and enrolment system after the drop deadline until the last day of class for the term associated with the course. When you withdraw from a course, the course remains on your transcript without a grade and is notated as "W". The withdrawal will not affect your grade point average or count towards the credits required for your degree.

Electronic Device Policy

Students are asked to refrain from texting or otherwise using cell phones during class. Those observed doing so will be publicly asked to leave the classroom. If you have an urgent need to check messages, call or text, please feel free to leave the classroom to do so and return when you are finished. Recreational (nonclass-related) use of laptops or readers in class is also discouraged. Please do everything you can to contribute to learning environment that is respectful of your fellow students.

Attendance Policy

Plan to attend all class meetings, since substantive material will be covered during Tuesday lectures that is not necessarily in your readings. Also 5% of your participation grade is based on your attendance to Thursday group discussions. Failure to attend Thursday discussions results in losing a percentage of participation grade allocated to each meeting. Please note that the instructor will not lend out lecture notes; it is your responsibility to borrow a classmate’s notes or have someone audiotape the lecture if you must miss a class.

Academic Integrity for Students

York University takes academic integrity very seriously; please familiarize yourself with Information about the Senate Policy on Academic Honesty.

It is recommended that you review Academic Integrity by completing the Academic Integrity Tutorial and Academic Honesty Quiz.
Test Banks
The offering for sale of, buying of, and attempting to sell or buy test banks (banks of test questions and/or answers), or any course specific test questions/answers is not permitted in the Faculty of Health. Any student found to be doing this may be considered to have breached the Senate Policy on Academic Honesty. In particular, buying and attempting to sell banks of test questions and/or answers may be considered as “Cheating in an attempt to gain an improper advantage in an academic evaluation” (article 2.1.1 from the Senate Policy) and/or “encouraging, enabling or causing others” (article 2.1.10 from the Senate Policy) to cheat.

Electronic Devices During a Test/Examination
Electronic mobile devices of any kind are not allowed during a test or examination. Students are required to turn off and secure any electronic mobile device in their bag which is to be placed under the chair while a test/exam is in progress. Any student observed with an electronic device during a test/exam may be reported to the Undergraduate Office for a potential breach of Academic Honesty.

Academic Accommodation for Students with Disabilities
While all individuals are expected to satisfy the requirements of their program of study and to aspire to do so at a level of excellence, the university recognizes that persons with disabilities may require reasonable accommodation to enable them to do so. The York University Accessibility Hub is your online stop for accessibility on campus. The Accessibility Hub provides tools, assistance and resources. Policy Statement.

Policy: York University shall make reasonable and appropriate accommodations and adaptations in order to promote the ability of students with disabilities to fulfill the academic requirements of their programs.

The nature and extent of accommodations shall be consistent with and supportive of the integrity of the curriculum and of the academic standards of programs or courses. Provided that students have given sufficient notice about their accommodation needs, instructors shall take reasonable steps to accommodate these needs in a manner consistent with the guidelines established hereunder.

For Further Information please refer to: York university academic accommodation for students with disabilities policy.
