Course website: Moodle

Nelson MindTap website: TBA

Course Description
This course develops university-level writing and communication ability. Students will write about psychological content; however, this course aims to develop general written communication skills that are broadly transferable. Emphasis will be placed on learning to write coherent arguments and explanations. Students will learn how psychological texts present information to effectively communicate with a reader. Students will develop the capacity to critique and improve their own writing. Critical thinking and logical reasoning skills are taught and practiced for the purpose of improving written communication. By analyzing exemplary psychological writing students will discover the form and structure of effective writing in Psychology. Readings and class discussions will increase understanding of how to write effectively. In-class writing exercises will be used to practice principles and ideas discussed. Providing feedback on the writing of peers will increase students’ capacity to reflect on and improve their own writing. Students will be guided, step-by-step, through the process of completing a larger writing assignment. Extensive feedback will be provided and multiple drafts of writing assignments will be completed. This course will prepare students for advanced writing assignments in upper year University courses and contribute to overall progress towards the advanced level of literacy expected of an educated citizen. At the end of the course, students will be able to develop a written argument on a controversial issue in psychology.

- 2 hours working on essay outside of class

Description of Assignments:

Writing Exercises:

During week 2 to week 8 you will spend 25 minutes in class writing on a topic related to the lecture. What you write in class (i.e., first draft of the writing exercise) must be uploaded to Moodle by 10 pm the next day. Then, in the following class, you will take 15 minutes to read a peer’s first draft and provide feedback. Your feedback must be uploaded to the website by 10 pm the next day. Finally, you will spend 30 minutes revising your writing based on the feedback you receive and upload a final draft by 10 pm on the day before the next class. All of this work will be done online on the Moodle site. Writing assignments will overlap so that you will be working on a different stage of up to 2 writing assignments per week. See your Writing Exercises Guide for more details. Given everything is being done online, you will still be able to participate if you have to miss class. **However, the deadlines for uploading drafts and feedback are fixed and cannot be extended.** Therefore, if you are unable to submit a draft or feedback, for ANY reason, you will lose the opportunity to receive participation marks for the missed work. At the end of the course, you will be asked to select your Best Writing Exercise and submit it for evaluation. In appropriate circumstances, and with appropriate documentation, the deadline for the submission of your best writing exercise can be extended.

**For a complete guide to Writing Exercises and deadlines, see Writing Exercises Guide on Moodle.**

MindTap Grammar Units:

Over the duration of the course you will be expected to complete 13 online grammar units via the Nelson MindTap website (see above). These units are due on the last day of classes. You must receive 50% or higher on the units and you will have 3 tries to do so. If you do not receive 50% or higher on the unit after 3 tries, you will not receive credit for that unit.

The units are self-paced and will be available for you to complete at any time; however, it is recommended that you complete one per week. Each unit will take approximately 45 minutes to complete. Each unit will address a foundational writing skill. For example, units will address foundational skills such as punctuation, grammar, style and word choice. All of this work will be done online.
**Mini-reflections:**

Mini-reflections will be completed in lecture. These reflections will be based on provided questions regarding your learning and experiences throughout the course, and should take approximately 10 minutes to complete. Missed mini-reflections cannot be made up.

**APA Assignment:**

For this assignment, you will be provided with samples of resources and required to demonstrate your knowledge of APA format.

**Essay and Essay Components:**

Over the duration of the course you will write one argumentative essay on a controversial issue in psychology. This essay will be broken down into smaller assignments (Essay Components) that together will build to the final essay. Each week we will spend time in class working on your essay. You will also be expected to spend some time outside of class working on your essay. From week 2 through week 11, you will be expected to come to class with two hard copies of a particular component of your essay – one copy will be submitted to the instructor (for grading on a pass/fail basis) and one copy to be shared with your peer in class in order to receive feedback. **The deadlines for bringing individual Essay Components to the class for feedback are fixed and cannot be extended.** Therefore, if you are unable to participate in a class, for whatever reason, you will lose the opportunity to receive marks for whatever you miss.

You will also submit essay components via Moodle for TA/instructor feedback and graded credit on two occasions:

- Essay components 1-4; due Oct 4
- Essay components 1-6; due Oct 25

In special circumstances and with appropriate documentation, deadlines for submission of components 1-4 and 1-6 of your essay to the TA/Course instructor for grading can be extended (see below for more information on missed work and required documentation).

**For a complete guide to Essay Components and deadlines, see Essay Components Guide on Moodle.**

**Choosing an Essay Topic**

Your essay for this class must be argumentative. This means that you will choose a controversial issue in psychology and choose a position that you will argue (and support with empirical evidence) regarding that topic.

Example essay topics*:

- Can people be addicted to video games?
- Are children with ADHD prescribed medication too often?
- Why has depression become such a widespread illness?
- Why are superhero movies so popular?
- Has the Internet had an overall positive or negative effect on human relationships?
• Should marijuana be legalized?

*These topics are examples. You may use these or choose your own topic. Be aware that your topic must be a controversial issue that may be reasonably argued from two sides.
