Course Description
The aim of this course is to introduce students to the history and theory of psychology as a science, a profession, and a social force. We are concerned with investigating how the practices, scope, and objects of psychology have changed over time. We will examine the various schools and systems that have flourished and declined since the eighteenth-century including sensationalism, phrenology, ‘brass instruments’ psychology, functionalism, behaviorism, psychoanalysis, and cognitive science. Particular attention will be paid to the social place of psychology as the science moved from being the provenance of a few to a mass profession that shaped the daily lives of many. During this period, greater attention was placed upon the inner lives of ordinary people than ever before and large organizations sought to come to terms with the individual through standardized measures and tests. We study how this situation came about and what its legacy is for the twenty-first century.

Program Learning Outcomes
Upon completion of this course, students should be able to:

1. Generate and evaluate original hypotheses in the history of psychology.
2. Demonstrate an awareness of how the field of psychology has been shaped by its historical context.

 Required Text

The textbook is available for purchase in the York bookstore, online retailers, and one copy is on reserve in Scott Library.

 Test Policy
Students are expected to write each test on the dates specified. There will be 3 in-class tests in this course. The in-class tests are worth 30%, 50%, 20% of your final grade respectively. The tests are based on the assigned textbook chapters and the class lectures. Tests will consist of a mixture of multiple-choice and short answer questions. On Tests 2 and 3, the majority of the questions are non-cumulative, but a small portion of the questions will ask you integrate material from previous sections.

There will be **no make-up tests or extra credit assignments**, except under extraordinary documented circumstances. **If you miss a mandatory test or assignment for no documented reasons, you will receive a grade of zero.**

 Late Work/Missed Tests or Exams
Students with a documented reason for missing a course test, such as illness, compassionate grounds, etc., which is confirmed by supporting documentation (Attending Physician Statement which can be found at: [http://myacademicrecord.students.yorku.ca/pdf/attending-physicians-statement.pdf](http://myacademicrecord.students.yorku.ca/pdf/attending-physicians-statement.pdf) may request accommodation from the Course Instructor. Further extensions or accommodation will require students to submit a formal petition to the Faculty.

You must email me and your course TA within **48 hours** of the exam/test and provide documentation in order to be permitted to take a make-up exam/test. **In this email, please (a) outline the reason for your absence, and (b) confirm that you have medical or other relevant documentation to support this reason. Please note your course section and your full name and student number in the subject header of your email.**

Please note that there will be **one set date** for the make-up test/exam. If you are unable to make this date, other arrangements will not be possible so please make every effort to make this date and
we will do our best to provide graded feedback before the drop date. Please also note, however, that if you miss a test(s) and the make-up of the test prior to the drop date, regardless of your reason, you have waived the right to have a specific percentage of graded feedback available to you prior to the drop date.

**Important New Information Regarding Missed Tests**
