All aspects of this course will be online. It will be delivered both asynchronously and synchronously. The majority of class activities can be completed asynchronously within time periods outlined in the schedule below. However, tests will be on a specific day and time (the same time for all students). To stay enrolled in the class, you must be available during the scheduled test times. This course requires a dependable internet connection, especially during scheduled tests.

BEGINNING SEPTEMBER 1, MOODLE WILL MOVE TO E-CLASS. THUS, ALL MENTION OF MOODLE = E-CLASS.

Instructor and T.A. Information
Instructor: Dr. Thanujeni (Jeni) Pathman
Office Hours: By appointment
Email: tpathman@yorku.ca

Course Prerequisite(s): Course prerequisites are strictly enforced

- HH/PSYC 1010 6.00 (Introduction to Psychology), with a minimum grade of C.
Course Credit Exclusions
Please refer to [York Courses Website](#) for a listing of any course credit exclusions.

Course website: Moodle
Announcements and course materials will be available on the course E-Class site. Note: any reference to “Moodle” = “E-Class”. Course activities will be also be completed via LaunchPad.

Course Description
This online course considers physical, intellectual, emotional and social development from birth through adolescence and the impact of the interaction of these various aspects of development upon the individual as a whole.

Program Learning Outcomes
Upon completion of this course, students should be able to:

1. Demonstrate broad knowledge of psycho-social determinants of development.
2. Describe and evaluate current theory and research in developmental psychology.
3. Understand and interpret principles of developmental psychology in everyday life.
4. Define causes of human development from different perspectives.

Specific Learning Objectives
Students will learn about classic and cutting-edge studies in developmental psychology, demonstrate their knowledge via online tools, tests and assignments; students will also contribute to discussions and engage with class material in small groups.

Required Text

Students have three options for purchase:

1. Loose Leaf text plus Launchpad (includes e-book).
2. Launchpad only (includes e-book).

Launchpad is necessary and is included in each of the three bundles. ISBNs for each of the above can be found via the York University bookstore website (textbook search tool). Note that other editions of this Siegler text cannot be used.
E-Class will house all class announcements, documents, assignments, lectures (i.e., my Powerpoints/videos) and discussion/participation activities. However, the quizzes and Learning Curve activities are through Launchpad, and you must register for Launchpad with your York University email address and ID.

To obtain instructions on how to register and use Launchpad visit the website below which was created by Launchpad/Macmillan for this course.

https://sites.google.com/macmillan.com/psyc2110pathmanf20/home

Please read through the different sections of the above website carefully because it will help you register and use the tools appropriately. There is also information on how to reach Launchpad customer service support. **Instructors and TAs cannot help with technical issues related to Launchpad – please contact customer support.**

The Launchpad website for our course is:
https://www.macmillanhighered.com/launchpad/siegler6ecanadian/13647118

Description of Assignments

TESTS
1. Tests will consist of multiple choice and short answer questions. Tests will be online.

2. There will be no make-up tests. Instead, students will be allowed to drop 1 of the lowest grades from these 4 tests (i.e., only 3 tests will count toward the final grade). Since the lowest test grade will be dropped, students may opt not to take one of the 4 tests. However, this is strongly discouraged for Tests 1-3 because there will be no make-up tests, and you do not know what the future will hold (i.e., whether you will need to drop a future test because of computer/internet issues during the test, illness or emergency).

3. Tests 1-3 will take place on the dates outlined above. The time for Tests 1-3 is 10am (ending by noon) (Eastern Standard Time). The date/time of Test 4 will be determined by York University’s Final Exam schedule.

4. Students do not need to let me know which Test score they want to drop from their final grade. The TAs and I will do this automatically and drop your lowest score.

LAUNCHPAD ASSIGNMENTS:

A) Chapter learning curve activities through Launchpad: These activities guide your reading of the chapter and include simple test questions. There are 16 total learning curves (2 learning curves per chapter). We will drop your 3 lowest learning curves (so only 13 learning curve assignments will count towards your final grade). See schedule below for due dates.

B) Chapter quizzes through Launchpad: There is 1 quiz for each chapter. You will be given 2 attempts to complete a quiz for a particular chapter. Each quiz will be 20 questions and you will have 25 minutes to complete it. There are 8 quizzes total (1 for each chapter), and we will allow you to drop your 2 lowest quiz grades. Thus your final grade will be made up of 6 quizzes. Quizzes are open book. See schedule below for due dates.

SMALL GROUP PARTICIPATION

You will be divided into small groups on E-Class and given various opportunities to participate in discussions with your group throughout the semester. This grade will be determined by how well you contribute to small group discussion boards and online activities throughout the semester. I will provide details on the participation activity for the week during my weekly posted lecture. Deadlines for completing participation activities will be posted with my lecture. Activities will usually be based on the “Critical Thinking Questions” listed at the end of the chapter (creating an initial post that answers
one of the questions, and replying to posts from peers). Your TA will provide guidelines for discussion boards (including etiquette, ground rules) and monitor the discussion boards weekly. All students must contribute to a safe and respectful online environment, and those that do not will receive a 0 for the Small Group Participation portion of the final grade.

EXPERIENTIAL LEARNING ASSIGNMENT

This assignment involves interviewing someone you know who has a job that involves working with children, or is currently a parent of a young child. The details of this assignment will be provided via E-Class.

Attendance Policy

Not applicable.

Grading as per Senate Policy

The grading scheme for the course conforms to the 9-point grading system used in undergraduate programs at York (e.g., A+ = 9, A = 8, B+ = 7, C+ = 5, etc.). Assignments and tests* will bear either a letter grade designation or a corresponding number grade (e.g. A+ = 90 to 100, A = 80 to 89, B+ = 75 to 79, etc.)

For a full description of York grading system see the York University Undergraduate Calendar - [Grading Scheme for 2020-21](#)

Information on calculating final grades for this course: Each assessment type (e.g., tests, quizzes, etc.) will be converted to a percentage based on the weighting. Each of these values will be entered with 2 decimal places (e.g., Experiential Learning Assignment grade = 7.42% out of total possible 10.00%). Then all assessment types will be summed to obtain the final grade percentage for each student. Final grades will be rounded up or down based on mathematical rounding with 0.50 and above being rounded up to the next whole number, and below 0.50 being rounded down. Thus, for example, a final grade of 79.50 will be given the final letter grade A, whereas a final grade of 79.49 will be given the final letter grade B+. To make it fair for all students, no student requests for ‘bumping up’ grades to the next letter designation will be considered.

Missed Tests and Missed/Late Activities and Assignments:

**There will be no deadline extensions or make ups for missed tests or activities; instead students are allowed to drop their lowest scores as outlined above.**

In the event that there is extended illness or emergencies (e.g., time frame that exceeds the number of allowed lowest grade ‘drops’) please do the following:

For any missed tests, activities or late assignments, students MUST complete the following online form which will be received and reviewed in the Psychology undergraduate
office. At this time, due to COVID-19 an Attending Physician’s Statement (APS) is not required, however, a reason for missing an evaluated component in the course must be provided.

**HH PSYC: Missed Tests/Exams Form.** Failure to complete the form within 48 hours of the original deadline will result in a grade of zero for the missed test, activity or late assignment.

Any accommodations made will be at the discretion of the instructor, and will likely involve increasing the weight of cumulative Test 4.

Note that if a student takes Test 1 and Test 4, but skipped Test 2 for no documented/eligible reason, and then falls sick and misses Test 3 (even with online form/approved reason), a grade of 0 will still be incorporated into the final grade calculation (e.g., drop one 0 grade, but keep the other 0 grade). As this example shows, it is best to take all term tests and not skip any, just in case.

**Add/Drop Deadlines**

For a list of all important dates please refer to: [Fall/Winter 2020-21 Important Dates](#)

<table>
<thead>
<tr>
<th>Add and Drop Deadline Information</th>
<th>Fall (F)</th>
<th>Year (Y)</th>
<th>Winter (W)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Last date to add a course <strong>without permission</strong> of instructor (also see Financial Deadlines)</td>
<td>Sept 22.</td>
<td>Sept 22.</td>

<td>Feb. 6 – April 12</td>
<td>March 13- April 12</td>
</tr>
</tbody>
</table>

You are strongly advised to pay close attention to the "Last date to enrol without permission of course instructor" deadlines. These deadlines represent the last date students have unrestricted access to the registration and enrolment system.

After that date, you must contact the professor/department offering the course to arrange permission.
You can drop courses using the registration and enrolment system up until the last date to drop a course without receiving a grade (drop deadline).

You may withdraw from a course using the registration and enrolment system after the drop deadline until the last day of class for the term associated with the course. When you withdraw from a course, the course remains on your transcript without a grade and is notated as 'W'. The withdrawal will not affect your grade point average or count towards the credits required for your degree.

**Information on Plagiarism Detection**

Turn It In (or similar software) will be used to detect plagiarism or assignments that are similar to other students.

**Electronic Device Policy**

This course will be delivered in an online format and therefore electronic devices (e.g., tablets, laptops) are permitted during class time for course-related purposes. It is expected that you would complete tests/exams in a manner that does not require consulting an unauthorised source during an examination unless the tests/exams are open-book. **ALL class assignments, activities and tests MUST be completed independently. No sources, other than your textbook, may be used.**

**Academic Integrity for Students**

York University takes academic integrity very seriously; please familiarize yourself with [Information about the Senate Policy on Academic Honesty](#).

It is recommended that you review Academic Integrity by completing the [Academic Integrity Tutorial](#) and [Academic Honesty Quiz](#).

**Test Banks**

The offering for sale of, buying of, and attempting to sell or buy test banks (banks of test questions and/or answers), or any course specific test questions/answers is not permitted in the Faculty of Health. Any student found to be doing this may be considered to have breached the Senate Policy on Academic Honesty. In particular, buying and attempting to sell banks of test questions and/or answers may be considered as “Cheating in an attempt to gain an improper advantage in an academic evaluation” (article 2.1.1 from the Senate Policy) and/or “encouraging, enabling or causing others” (article 2.1.10 from the Senate Policy) to cheat.

**Academic Accommodation for Students with Disabilities**

While all individuals are expected to satisfy the requirements of their program of study and to aspire to do so at a level of excellence, the university recognizes that persons with disabilities may require reasonable accommodation to enable them to do so. The university encourages students with disabilities to register with [Student Accessibility Services (SAS)](#) to discuss their accommodation needs as early as possible in the term to
establish the recommended academic accommodations that will be communicated to Course Directors as necessary. **Please let me know as early as possible in the term if you anticipate requiring academic accommodation so that we can discuss how to consider your accommodation needs within the context of this course.**

https://accessibility.students.yorku.ca/

**Excerpt from Senate Policy on Academic Accommodation for Students with Disabilities:**

1. Pursuant to its commitment to sustaining an inclusive, equitable community in which all members are treated with respect and dignity, and consistent with applicable accessibility legislation, York University shall make reasonable and appropriate accommodations in order to promote the ability of students with disabilities to fulfill the academic requirements of their programs. This policy aims to eliminate systemic barriers to participation in academic activities by students with disabilities.

All students are expected to satisfy the essential learning outcomes of courses. Accommodations shall be consistent with, support and preserve the academic integrity of the curriculum and the academic standards of courses and programs. For further information please refer to: York University Academic Accommodation for Students with Disabilities Policy.

**Course Materials Copyright Information**

These course materials are designed for use as part of the Psyc 2110 course at York University and are the property of the instructor unless otherwise stated. Third party copyrighted materials (such as book chapters, journal articles, music, videos, etc.) have either been licensed for use in this course or fall under an exception or limitation in Canadian Copyright law.

Copying this material for distribution (e.g. uploading material to a commercial third-party website) may lead to a violation of Copyright law. [Intellectual Property Rights Statement](#).

***COURSE SCHEDULE***

The course is divided into ‘units’ which group chapters together. Each unit is approximately 4 weeks, and ends with a test for that unit. To help students get accustomed to the course, the first unit is only 2 chapters; the remaining units are 3 chapters each.

Each posted lecture will review important portions of the chapter you have read, include additional material when warranted, and provide details on the small group participation opportunity for that week. Small group activity due dates are not posted below because these opportunities will vary throughout the semester. The due dates will be stated when I post my lectures, so make sure to watch lecture videos soon after it is posted.
<table>

**Test 3: Sunday Dec. 6th** (Covering reading and lectures for Chapter 10, 11 & 14)

**Experiential Learning Assignment due no later than Dec. 8th 11:59pm**

| Final Exam Period | Test 4: TBA (Cumulative; covers all 8 chapters and lectures) |

**Launchpad activities (LCs and quizzes) are released 1 week before the beginning of the unit (i.e., 1 week before my first lecture for that unit is posted). Thus you will not see it as a “to do” item on your Launchpad until that time.**

Feedback for Launchpad quizzes are released automatically after the due date.

**IMPORTANT advice to optimize your learning and memory for the material, and to help you plan your daily schedule (i.e., ‘to do’ list) for this course:**

Just like in traditional classes, it is best for readings to be completed before each lecture. Thus the chapter should be read and associated learning curves completed before “class time” (i.e., by 8:59am the day lecture is to be posted). If you do that, you will have at least 1 week to a) watch that chapter’s lecture, b) complete that chapter’s quiz and small group participation activity, and then c) start the next chapter’s reading and learning curves. And this cycle continues throughout the semester. This is the ideal schedule you create for yourself, in order to optimize learning and memory of content material. Although that is the ideal schedule, you are given until the end of the unit to complete all LCs and quizzes for that chapter. Note this does not mean you should wait until the due date to complete these launchpad activities. Doing them all at once before the deadline will not be ideal for your learning and test preparation (see article by Putnam et al., 2016; posted for the class with the syllabus).

Due dates for small group participation activities will be posted when lectures are posted for that week. In most cases, your small group participation ‘initial post’ will be due about 1 week after my lecture is posted, and ‘reply posts’ will be due about 1.5 weeks after my lecture is posted. (Thus you may choose to set up your schedule such that you make time to ‘reply’ to posts from the previous chapter the same day that you make your ‘initial post’ for the next chapter.)

Everything you need to complete the Experiential Learning Assignment will be available early in the semester. Thus, do not wait until the end of the semester to work on the
assignment. It is best to work on it throughout the semester and submit it well before the deadline. Remember that the end of the semester will be a hectic time – so plan ahead.
